About us

Bluegate Company established in 2013, have immense pleasure in introducing ourselves as a multi-discipline MEP contracting company and our key personnel were part of many
prestigious fit out retail and F&B projects.
we provide the best services in the field of electromechanical services including design and
execution of refrigeration, air conditioning, plumbing and electrical project works.
we view each project as an opportunity to provide total engineering solutions and achieve
complete customer satisfaction while building relationship of mutual trust and respect.
we are proud of our ability to meet the highest standards of service demanded by the clients,
architects, service consultants, quality construction companies and reputed contractors.

Bluegate Offer the best service to all our clients, we are specializing in electromechanical works
of all kinds. as a corporate policy,
we also used the premium quality products to blend with high quality workmanship, also
acting as the single point of contact with the client, our experienced project manager's control
and supervise all aspects of the job, coordinating the work between our own workforce and all
other subcontractors to deliver the complete project within budget and deadline

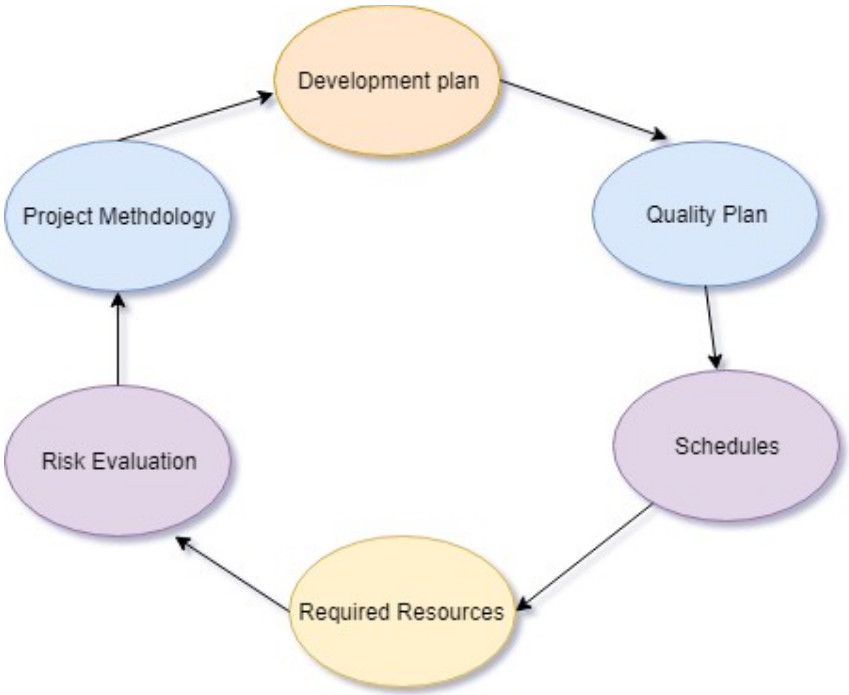
- Kitchen Extract Treatment System.
- Smoke Extract systems.

Hydraulics, Plumbing system

- Water supply piping distribution works.
- Drainage piping Network.
- Fire Suppressions, LP Gas and SNG contacting.

Quality Assurance Policy & Process



our policy
our policy incorporates formal procedures of implementation as well as ensuring the policy is carried through in our feasibility studies, detailed design work and on-site inspections. in essence, therefore, our quality control system is not a 'bolt-on' to our practice philosophy but integral to the whole fit-out process.
we are familiar and experienced with the processes of responsibilities of originating and innovating in fit-out and the ultimate responsibilities we have as contractors to the client and the end user irrespective of public or private sector projects.

quality assurance standards
we do not believe it is necessary to apply all its criteria to a small practice such as ourselves where organization, production of information, consultants and construction are not within one organization. our insistence on quality-excellence is inherent to the work we do and must be understood and adhered to by all parties for whom we work collaboratively. we vet and inspect all our sub-contractors to ensure we are all working to achieve the same result.
our policy is well-understood by all our employees, indeed it would be fair to say that it is already in-built in their 'design-persona' to enable them to become a member of staff at our practice. we review both on-going and completed projects every month to allow the continued sharing of information between designers and consultants. this always allows all members of staff to continue to develop their quality driven skills.
we pride ourselves greatly on our attention to detail, delivering quality and durable execution. many of projects are via repeat clients who know we can deliver quality.

Health and safety Policy

we are committed to safeguard the health and safety of all employees, of all person who work on our behalf and all persons who are likely to be affected by our work.

the health and safety standards acceptable to us are those that meet, and where possible exceed, requirements of nation and international regulations, codes & standards and authoritative guidance.

We provide cooperation to the company's safety and hygiene programmed, and are entitled to suggest opinions on improving working conditions and workplace safety taking care of proper hygiene and orderliness in working areas

we are committed to minimizing the environment with safe and responsible handling of materials and equipment.
we intend to implement this policy fully, recognizing the benefits that accrue from effective safety procedures and a safe system of work.
