EMMA DAVIES

DIRECTOR

Emma is a confident leader with an open mind, whose determination and passion for developing business acumen has resulted in working for some of the most recognised blue-chip retailers and Developers whilst acquiring skills in Project Management, Business Planning, Profit and Loss, Buying, Merchandising and Developing..

Emma takes care of the financial side of the business, planning and project management, but always with an eye on the target of providing the best service whilst mentoring and developing the team.

She has been involved in many high-profile projects in the Middle East, such as luxury hotels, commercial developments, theme parks and exhibition centers.

CRAIG MORRIS

OPERATIONS MANAGER

Multi disciplined professional with experience from a variety of sectors bringing experience and knowledge from as far West as the USA all the way East to Asia.

Beginning life 'on the tools' Craig then moved into the frontline and over two decades tailored his knowledge with both B2C and B2B sales experience, gained within the lighting and interiors arena and now possess success in business management and operations.

A solution selling specialist who believes people buy from people and has built strong relationships across the MENA region over the last 5 years with an entrepreneurial spirit and out of the box approach.

DAVE SELBY

TECHNICAL DIRECTOR

Dave leads IPS's technical team. He has more than 25 years of industry experience and has worked on an array of projects from London to India. Prestigious projects include the London Eye, Expo2020 and Royal Atlantis.

With a key focus on specialist lighting and electrical work, Dave works closely with Contractors, Designers and Developers committed to providing design conscious installations with a passion for quality and dedication in meeting project deadlines.

Dave's hands-on approach and experience have been essential elements in IPS's success - providing feasible, real and affordable solutions to clients.

PRINCE ALEXANDER

PROJECT ENGINEER

Qualified in Health and Safety Management Prince combines his technical skills with his natural ability to ensure that projects run efficiently and to an exceptionally high standard as you would expect from a Dubai Municipality approved engineer.

Working with IPS to drive overall project management from beginning to end including management of custom design projects, Prince coordinates with clients, manufacturers and contractors providing technical guidance for correct installation of lighting and controls against design drawings to meet with DEWA approved regulations.

TESTIMONIALS

SCOTT ANDERSON

Designed Architectural
Lighting

Excellent work. Carried out work over and above their remit to ensure the project was completed to a high standard.

The experience we had with IPS was flawless. After dealing with many substandard companies it was a privilege to have the expertise of David on board. We had a number of existing installation issues which the team fixed for us, as well as this we continued to use IPS for several new installations and the quality of work was done to perfection. The communication, support and service was outstanding and much appreciated.
