

Design your Story with us

Our Story

MY PICK ONE is an Interior Design Boutique firm, founded in 2014 by Marianna Piccolo; focusing on the design of Luxury Projects for exclusive international clientele across the Middle East and Europe.

Our Founder

Marianna Piccolo

Founder & CEO

“Ciao a tutti!

I am the Founder and the Vision of MyPickOne.
I am also Italian, from Puglia, a great Food lover, and I
am constantly looking for Beauty in everything.

My Passion is to design Luxury Residences.

My Life Purpose is inspiring people, making everything
Special.

My Specialties are matching colors/materials,
visioning the latest trends and being intuitive with
client needs.”

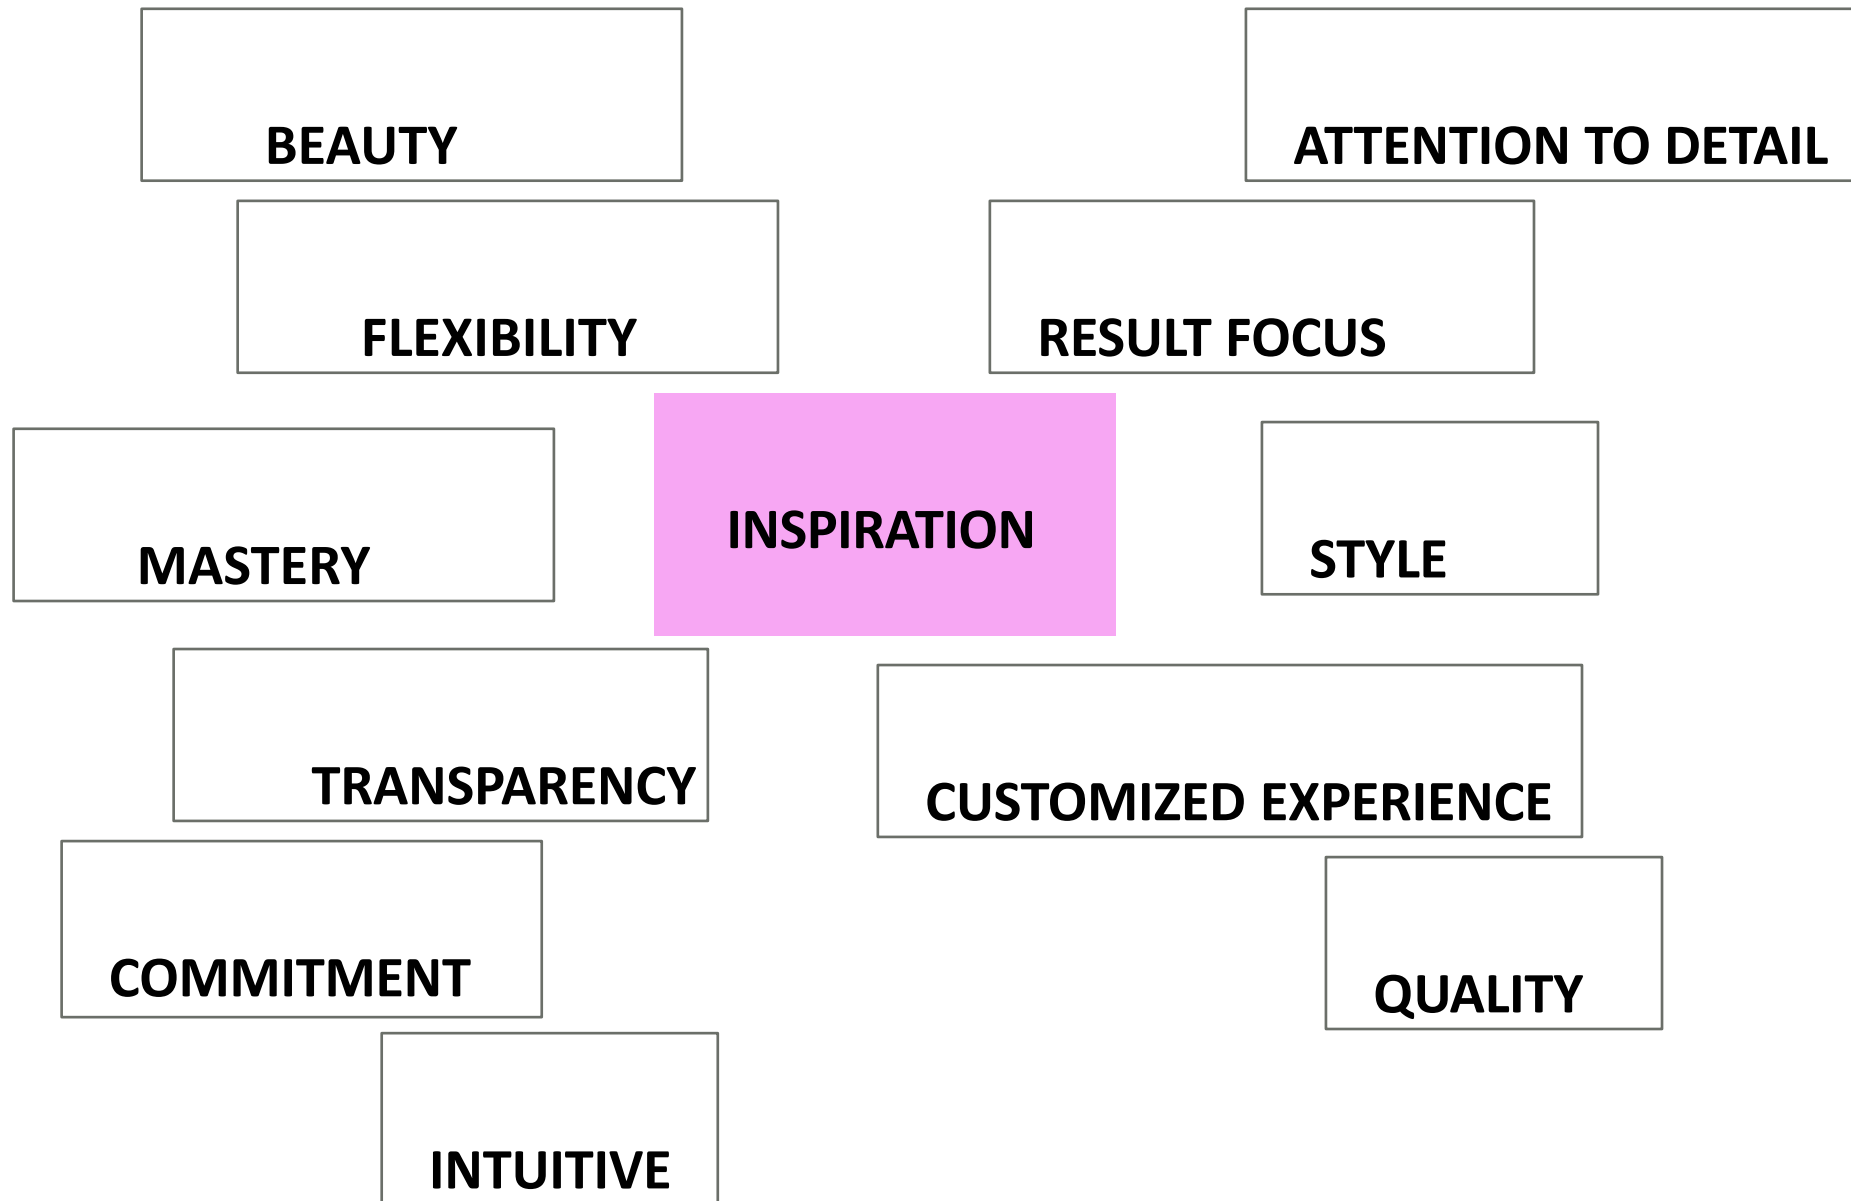

**EXPERT in LUXURY
Projects**

Our **PASSION** is adapting the sense of Beauty to an International range of Client

BOUTIQUE FIRM (Bespoke Approach, Lean Organization for accelerated decisional process)

Our **PURPOSE** is to convert our Client needs into a living space

One-Stop-Shop

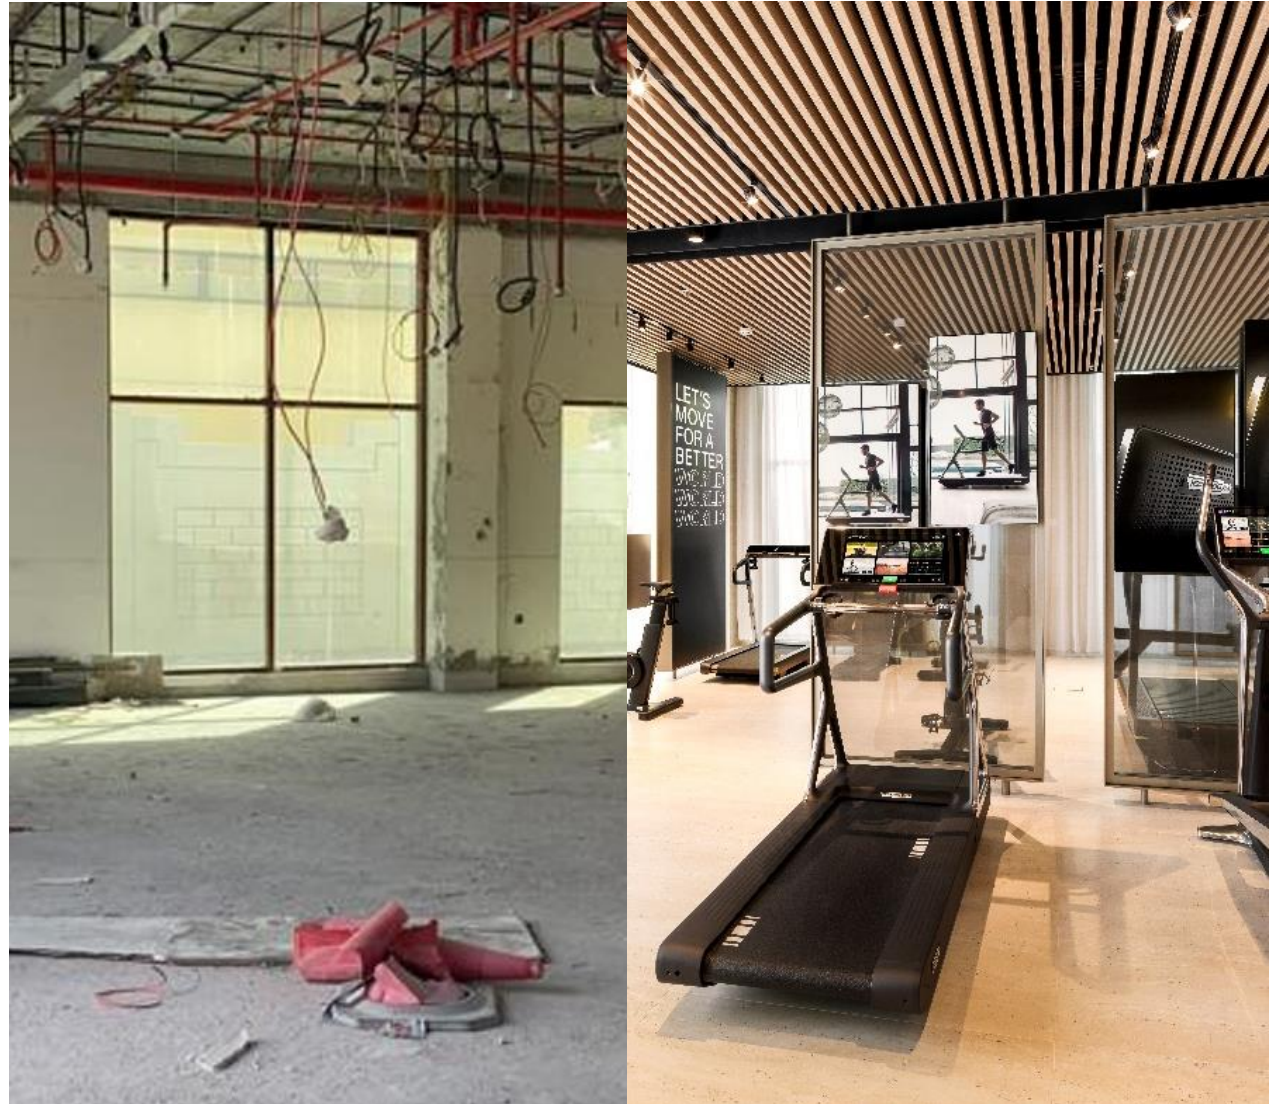

Interior Design

Before the execution. We sketch out the drafts of our designs including selecting the materials and outlining the finishes which may help in creating an exquisite ambiance in the space.

Project Management and Site Supervision

On construction sites large and small, supervision has a key role to play. Typical supervisory will perform a Design Compliance to advice if the intent is fully respected.

Selection and Supply of Furniture, Fixture and Equipment (FF&E)

FF&E is a selection of products, furniture, lighting, fabrics, wallpaper, and accessories. Once they are approved, we take care of the procurement part, such as pricing, negotiating, purchasing, and landing all the products on site.

STEP 01

Sketching out the Concept

The first stage of each project always involves planning and going back and forth with the client to go over the details, confirming different aspects like time and budget. The MY PICK ONE design team also carefully records the client's requirements and expectations with a complete brief.

STEP 02

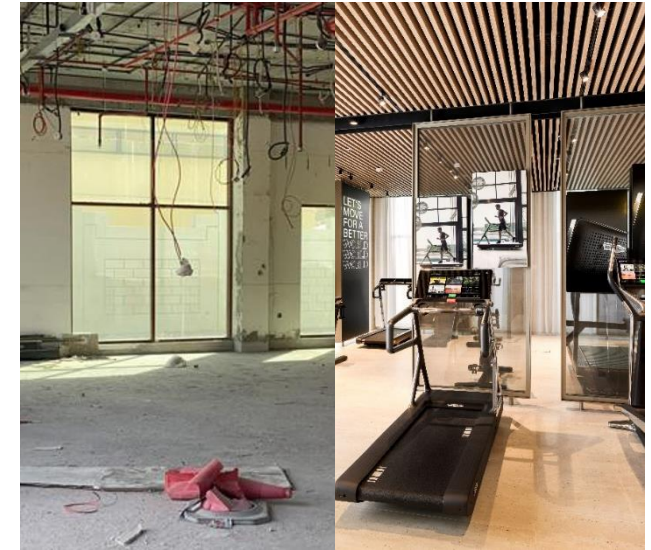

3D and Drawings

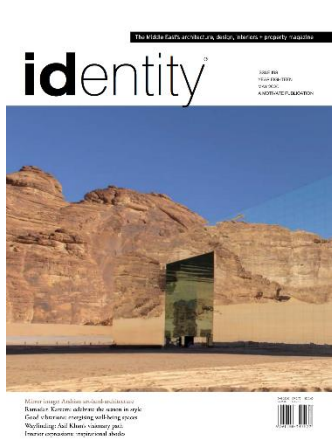

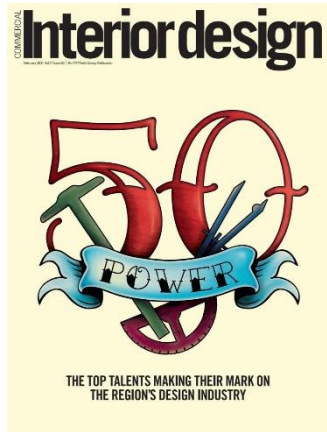

After putting the ideas on paper, the team develops three-dimensional visuals of the space to show the clients what the finished product will look like. At this stage, they can make crucial upgrades and edits, especially when something they assumed would look good on paper ends up looking impractical.

STEP 03

Procurement and Site Supervision

Once digitization of the design is complete, implementation can begin. The MY PICK ONE team supervises the process until the very end to make sure that it meets deadlines and other requirements.
