Introduction & Statement of Capability

dpa lighting consultants greatly values its history but concentrates on the present and future. The Practice was established in 1958 by Architect Derek Phillips, who qualified at Liverpool University and then went on to complete a Master's course in Architecture at Massachusetts Institute of Technology. Derek met and worked with many important Architects who greatly influenced his pioneering activities as an independent Lighting Consultant. His meetings with Frank Lloyd Wright and Le Corbusier were particularly inspirational.

The Practice now has studios in Japan, the U.A.E and the UK and a team of over 50 people who focus their thoughts on all aspects of lighting, both natural and artificial. The scale of our Practice and close working relationship between our studios means we have been able to recruit from a wide variety of backgrounds such as Architecture, Urban Design, Interior Design, Product Design, various Engineering disciplines, the Theatre and so on. This broad skill base that now focus solely on architectural lighting design provides **dpa** with an unparalleled human resource and knowledge to deal with the varying challenges each project demands.

dpa has always been at the forefront of education about all aspects of the lit environment and this continues today. Our desire and appetite to continually learn and share information has always been important, but perhaps with the current changes in light source technology and environmental legislation is more important than ever. We have different teams constantly monitoring and discussing all aspects of the built environment and lighting technology, be it LED light sources or digital controls and sharing this information with everyone in the Practice. This commitment to continuous research and debate, both internally and externally, combined with the talent of our design team ensures that our Clients receive the most innovative and informed advice today.

Our history and completed projects, which number over 7,000 in 80 different countries, provide us with an incredible wealth of experience, whilst our appetite for the present and future ensures that **dpa** are at the leading edge of lighting design, pushing creative and technical boundaries whilst always protecting our Clients interest.

DAVID MCNEIL - Director

IALD Assoc., BA (HONS) Furniture & Product Design

BORN: 1974, Banbury, Oxfordshire

JOINED dpa: 2000

David joined the Oxfordshire practice of **dpa** after graduating in Design from the Nottingham Trent University. After 4 formative years in the U.K, David moved to the Middle East and was instrumental in the setting-up of the **dpa** Dubai office where the practice has enjoyed 17 successful years.

Hospitality Lighting Design is very important to the practice, and is a major focus of work in the Middle East. David has been involved in many prestigious hotel projects over the years, notably, the award-winning Grosvenor House, Dubai and Hyatt@Capital Gate, Abu Dhabi.

David's inspiration for lighting comes from the Architectural form of the space and "story" that good lighting can contribute to a project.

A successful lighting installation is in no small part due to the efforts of the whole Project Team. David is a firm believer in the strength and diversity of the **dpa** team and the importance of communicating with clients and other Design Disciplines to fully realize the concept.

PROJECTS:

LEE SWEETMAN - Director

BA Hons Furniture & Product Design
MA Furniture Design

BORN: 1974, Llanelli, S Wales

JOINED dpa: 2015

Originally trained in the three dimensional fields, Lee entered the lighting industry in 2000 after graduating with a Master of Arts degree in Furniture Design from Buckingham Chilterns University.

Over the last 19 years Lee has worked for and collaborated with several world class Design Studios.

Lee joined **dpa** as an Associate in September 2015 after spending the previous 15 years working in London. Lee's broad spectrum of UK, European and International lighting experience within the Retail, Leisure, Hospitality, Commercial Property, Public Realm and Heritage fields brings a wealth of knowledge and experience that strengthens an already dynamic and creative studio environment.

Lee has developed a wide variety of both creative and commercial skills, essential in the day to day running of a busy design consultancy. From initial creativity and pitch through detailed specification to on site implementation and response, Lee's ability to communicate across the broad spectrum of design and construction industries compliments his creativity as a designer.

NIKOS MOSKOFIDIS - Director

Degree in Architectural Engineering, TCG

BORN: 1978, Thessaloniki, Greece

JOINED dpa: 2014

Following his graduation from the Democritus University of Thrace with a degree in Architectural Engineering in 2007 Nikos started working as lighting designer.

Over the last 13 years Nikos has collaborated with several design practices working in Residential, Hospitality, Leisure, Public Spaces, Heritage and Landmark projects, gaining substantial experience in all stages of design till project completion.

Nikos has participated in a number of workshops and was one of the main speakers of FOS – Lighting Designers for Historic Urban Landscape. In 2013 he was invited to deliver a lecture to the Conservation and Restoration postgraduate course of School of Architecture AUTH, on Lighting of Historical Monuments.

Nikos joined the **dpa** Dubai office in 2014 and is currently involved in some of the most challenging and exciting projects in the region.

Nikos believes strongly in the collective creative process and contributes to **dpa's** diverse team, throughout the entire design process with his creative thinking and ability to communicate his ideas.

LOUISE SANTIAGO - Senior Designer
Bachelor of Science in Architecture

BORN: 1984, Philippines

JOINED dpa: 2006

Louise studied Bachelor of Science in Architecture at University of Santo Tomas, which is one of the only two to be proclaimed as Center of Excellence in Architecture by the Commission on Higher Education and a consistent Top Performing Architecture School in the Philippine Architecture Licensure Examinations.

Before studying Architecture, Louise graduated top of her class and was awarded Gerardo Roxas Leadership Gold Medallion for her exemplary leadership and dynamic spirit in both academics and extra-curricular activities. She was a finalist at numerous UST Architectural Design Competitions such as Heritage Building Design 2004 focusing on conservation of cultural properties and Mixed Used Development Design 2005 emphasising the use of natural lighting and ventilation.

In 2006, she joined **dpa** Dubai where she has assisted in number of residential, commercial and hospitality projects within the Middle East Region and has attended international exhibitions and conferences.

Louise has been supporting and empowering Filipino Architects in Dubai by delivering lectures on Professional Practice and Basics of Architectural Lighting Design headed by the United Architects of Philippines Dubai Chapter.

She enjoys volunteering for Charity, street photography and visiting art galleries. Louise is also a Certified Professional in Autodesk REVIT Architecture 2016.
