OUR MISSION

Our mission is to provide Customer "A Total customer experience" by delivering the projects and solutions with vibrant interconnected professional teams focus and collaborate to deliver exceptional Client service to the Corporate & Commercial, Hospitality & retail & Social Infrastructure markets. The team at Capstone combines creativity, experience, innovation and sound commercial principles to create projects that shape businesses.

OUR POLICY

Affordable, Impeccable, On time. Everytime.

ABOUT US

We, Capstone Interior Design, is an interior construction company dedicated to work with creative and innovative range of design houses to meet client's design and budgetary expectations. In close collaboration with architects and organizations, we not only design the complete interior fit-out for specialist projects, we also carry it out – from the fixtures right through to the individual items of furniture. As your partner of choice we develop integrated solutions with you to satisfy the special requirements of your construction project. We work closely with client's architects, designers and other professionals and our in-house team will carry out building surveys and produce design layouts and detailed working drawing.

We have our own in house design development department compatible to create and visualize the design as per the client's requirements. We as a contractor know what is buildable and deliverable within our clients' budgets.

Design
