LUXURIOUS SETTING THAT IS STEEPED IN A SOPHISTICATED ART DECO PAST

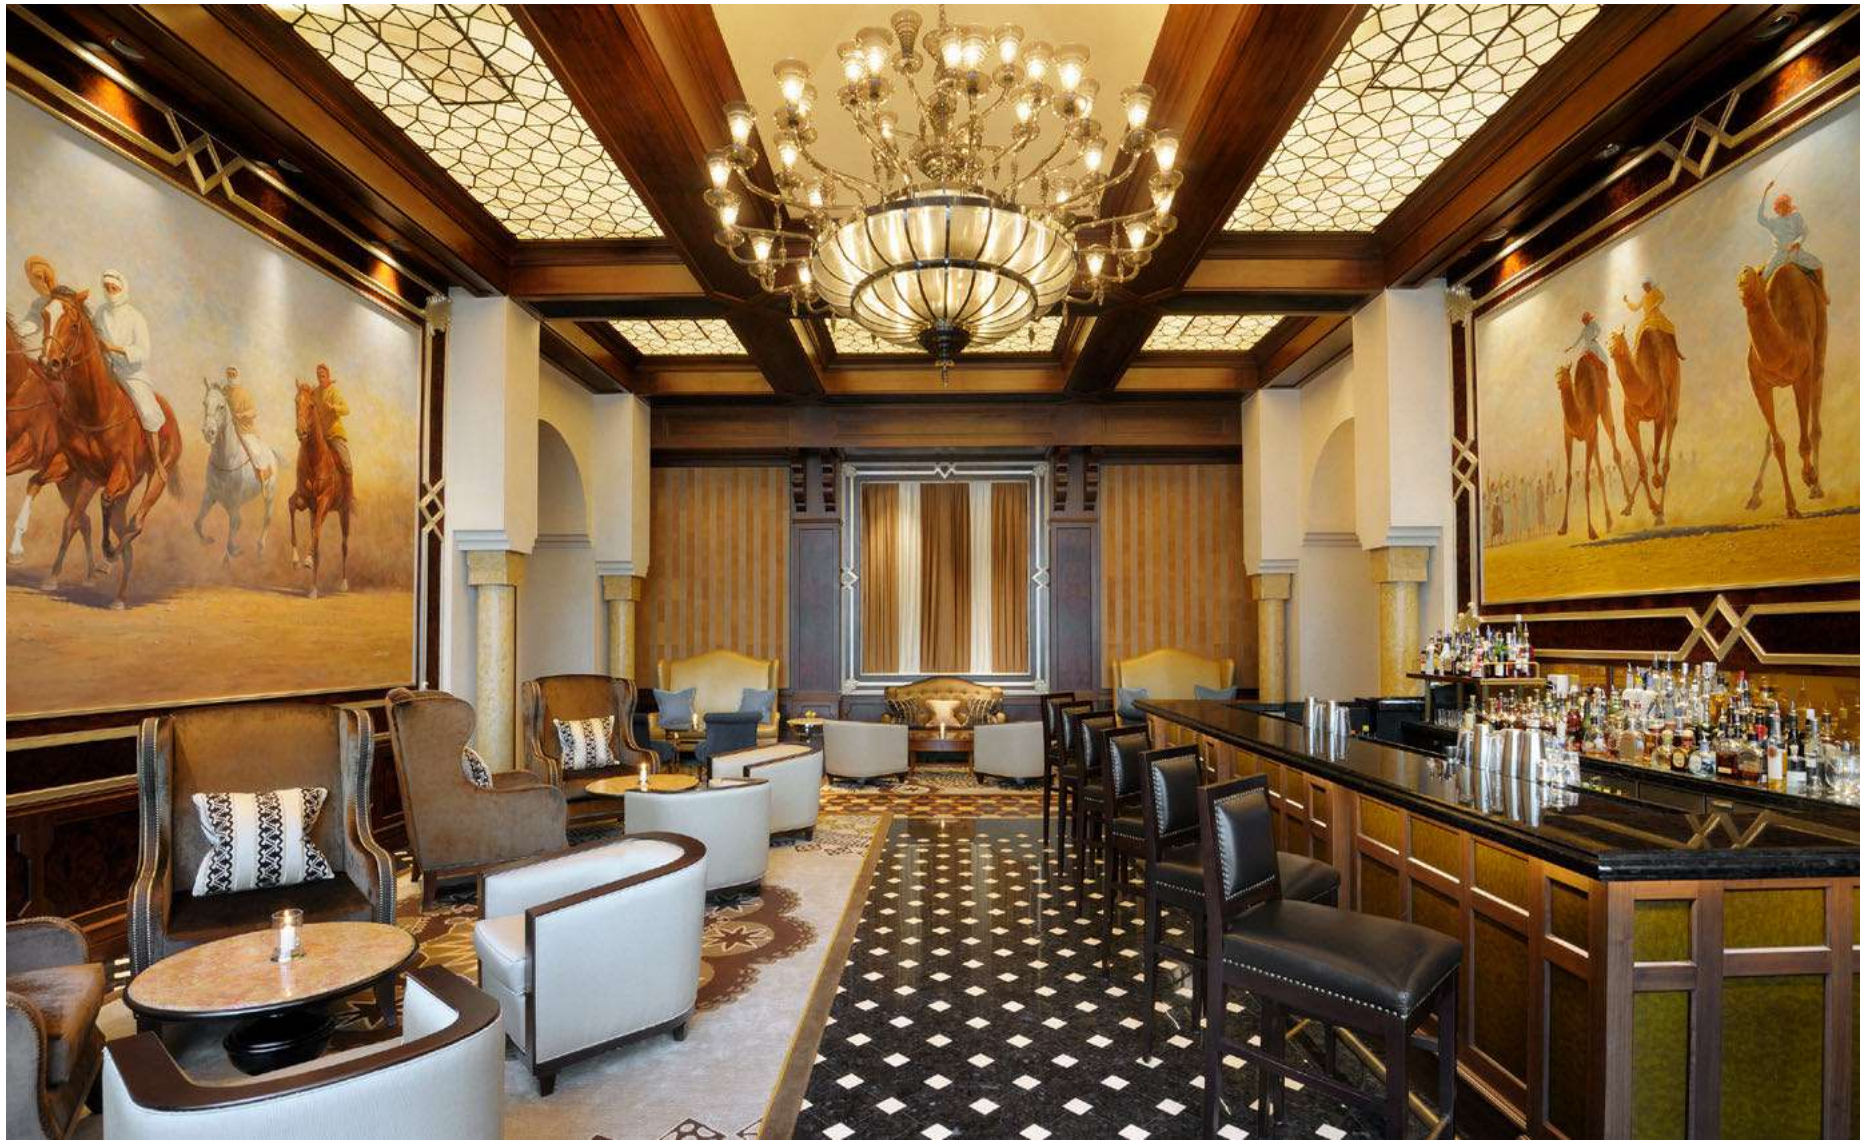

Marking the brand's second hotel in Abu Dhabi and third St. Regis hotel to open in the Middle East, The St. Regis Abu Dhabi continues to reinforce Starwood's position as a leader in luxury hospitality. The hotel, located on the vibrant Corniche in the heart of the UAE capital, designed to marry the majestic metropolitan manor design of the flagship St. Regis New York with rich Arabic culture and the opulent Art Deco era. Drawing on the warm colours of the sands, souks and traditional Middle Eastern cuisine, HBA has imagined a luxurious setting in Abu Dhabi that is steeped in a sophisticated Art Deco past.

PUBLIC AREAS

Gone is the previous conventional, dark décor, with the lobby's traditional fireplace now exchanged for one encased in a floor-to-ceiling glass and thereby opening up the ground floor between Park Street and Hyde Park with light and freshness from the park vista beyond.

From morning coffee to afternoon tea and evening cocktails, the public areas have become a social hub aided by a streamlined spatial flow connecting the lobby, library and Park Room. English in taste with contemporary twists, the elegantly feminine design mixes delightful parkland references with playful allusions to the hotel's theatrical and risqué history through acts such as the famous Grosvenor House Girls.

ALPINA GSTAAD

GSTAAD, SWITZERLAND

HBA took the traditional chalet form of the building into the interior and contemporized it. Warm reclaimed rustic timber forms the envelope to most of the spaces and there are many references to local customs and craft skills, from elaborately hand-painted ballroom doors in the manner of centuries-old farmers' paintings to intricate patterning embroidered onto some of the armchairs.

Alpina Gstaad has been voted in numerous top lists including Travel & Leisure World's Best 100 Hotels- 2016, Travel & Leisure's IT List- 2013, Elite Traveler's Coolest 10 Suites in the World- 2013 and Conde Nast Traveler (US) Top Hotels Hot List- 2013.

AT CAIRO MARRIOTT HOTEL

CAIRO, EGYPT

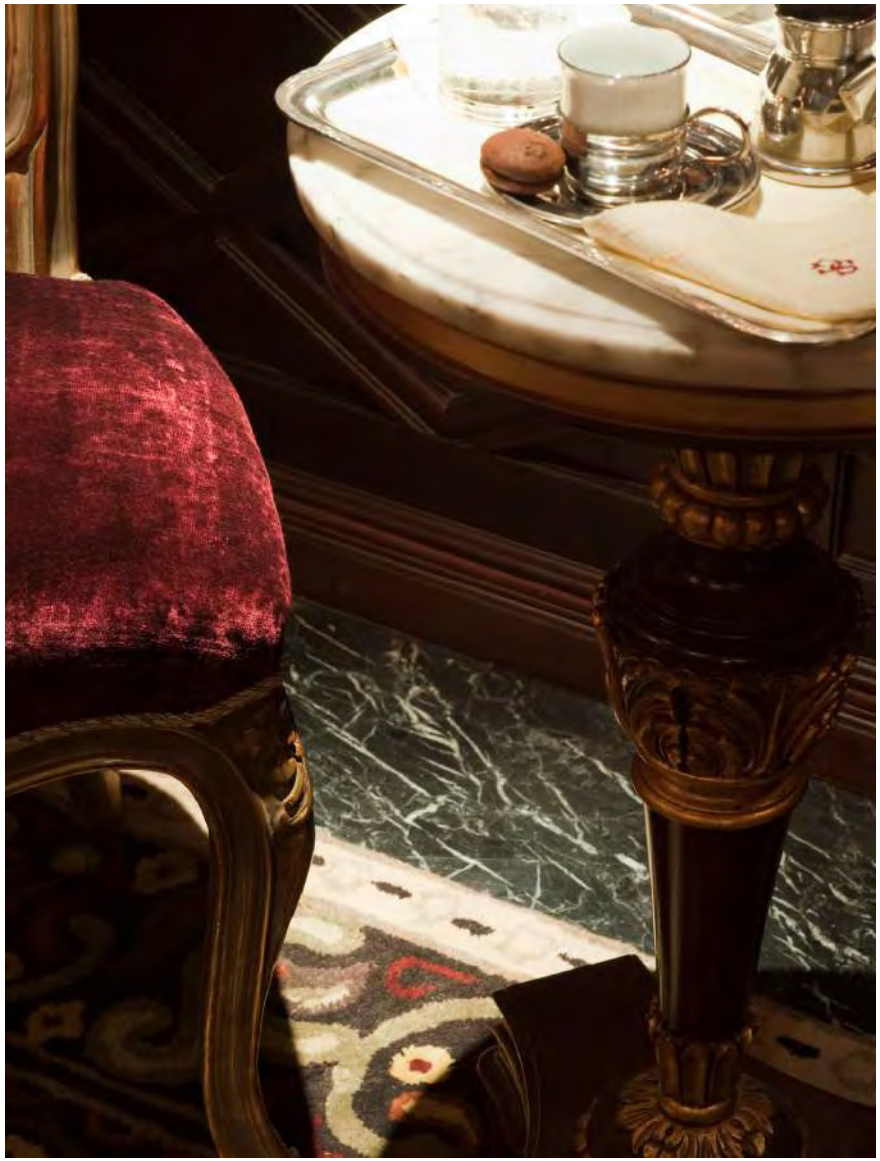

The Saraya Gallery- housed in the Cairo Marriott Egypt - was the palace originally built for Princess Eugenie, the wife of Napolean III, to accommodate her during her trip to Egypt for the opening ceremony of the Suez Canal. With that in mind, the five star hotel in Cairo, appointed HBA to resurrect the royal tale through the renovation of one of its old restaurants to its former Ottoman glory.

LOBBY LOUNGE

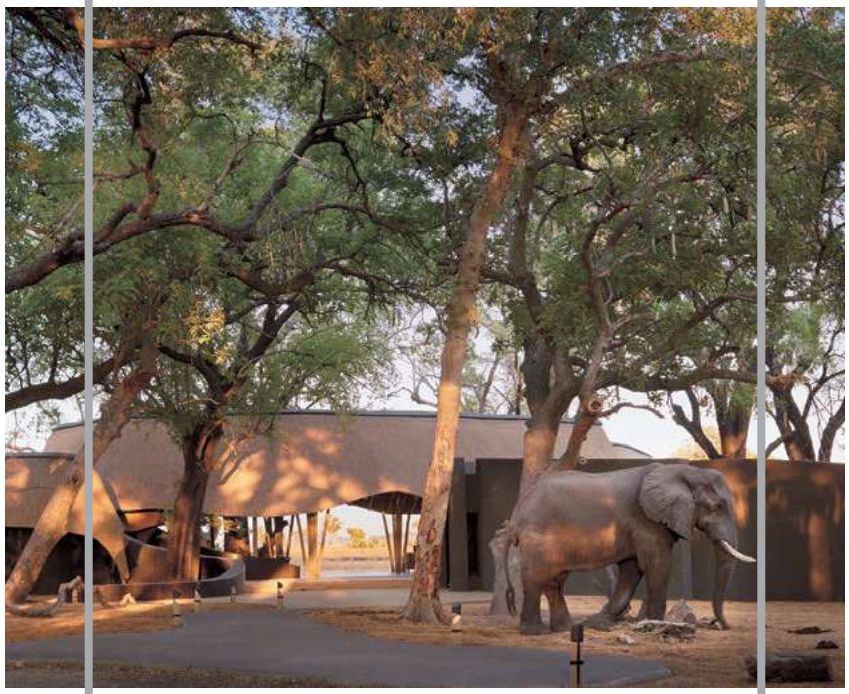

During the renovation of Saraya Gallery, HBA sought to keep the style of the Cairo restaurant authentic and similar to the original palace. Al Gezira palace was carefully designed to relay strong French influences all over the structure, carefully mixing European and Ottoman influences to result in an elegant, sophisticated yet comfortable scene. HBA wanted to bring back the palace's former glory and create wonderfully dramatic and intimate spaces throughout Saraya Gallery's grand high rooms.

TROPICAL ECLECTIC STYLE WHERE TROPICAL MODERNISM MEETS BAREFOOT LUXURY

Sirru Fen Fushi, which translates to Secret Water Island is a 120-villa luxury resort located on a 160,000 m^2 island with one of the largest lagoons in the Maldives. The resort also includes a 200 m swimming pool, a Kid's Club and four F&B outlets. Sirru Fen Fushi embodies a tropical eclectic style where HBA derived inspiration from both tropical modernism and a barefoot luxury aesthetic for a chic, yet rustic result. Local crafts were combined with an artistic twist to create a varied mix and unique experiences for the guests. Furniture and finishes were inspired by found objects and natural systems discovered on the island itself.
