Ras Al Khor Industrial Area 2

P.O Box: 294599, Dubai, UAE

Introduction

With the fast pace of developments in interior industries, architecture and modern engineering, there occurs not only a rapid increase in demand for metal and glass products, but also the increasingly higher requirements for advance technical staff to carry out the task.

Metal Lab was founded with its mission to meet these demands of customers throughout the Middle East. The company envisions an industry to cater each and every client's technologically diverse needs from commercial to industrial sectors with a functional, productive and thorough workmanship and remarkable dedication to exceed customer expectations.

Metal Lab team has a commitment to excellence mandate to provide synergetic and flexible solutions for our client's requirements. We are committed to establish the client's projects requirements quickly, accurately and to respond effectively. Our team works hard to make sure that our standards of quality and service are upheld for each customer.

The relationships at Metal Lab are what drive our goals and help us attain success in large and small areas of our processes. We provide our employees with the opportunity to grow within the company and to achieve financial success and independence. We want to continue to build a strong company family and facilitate a healthy work ethic.

The company's goal, with its experienced professional management, is to provide consistent quality of performance to our clients and at the same time forming a structured base to utilize and support the local industry of the country in which we are operating.

OUR KEY
TEAMWORK
PRODUCTIVITY
COST EFFECTIVENESS
SCHEDULE COMPLIANCE
UPSTREAM MANAGEMENT
CUSTOMER SATISFACTION

Health, Safety & Environment (HSE)

Metal Lab exercises safety and is committed to local implementing organization and international HSE standards and procedures. A dedicated certified HSE Manager and team regularly conduct seminars, trainings and updates to its workforce. HSE team strictly implements best practice ensuring the safety of staffs on and off-site work and the environment.

Quality Policy

It is our policy to provide products and services that exceed customer expectations and to deliver on time. Metal Lab maintains consistent manufacturing standards and practices to ensure total product reliability. We continuously develop to create additional value to our product and services by using a state-of-the-art technology, innovative and dynamic solutions.

Capabilities

We are a designer, fabricator and installer of structural and specialist architectural metalwork. We completed projects where exceptionally high standards of architectural detailing are critical and we are proud to have successfully developed working relationships with clients, architects, designers and other contractors.

We work closely with architects and designers in bringing concepts and designs into manufacture. We provide professional advice on suitability, performance and finishes. Send your design sketch to us and we will advise on the best materials and finishes.

**"Metal Lab has always been devoted to quality and innovation.
It is this steadfast dedication more than anything else that has
been the hallmark of the company; characteristics that
Metal Lab management wanted to maintain"**
