Message from the chairman

Over the last twenty two years it is our uncompromised dedication, commitment, hard work and quality which have helped us build confidence in our clients. This facilitated us to evolve to a premier enterprise in terms of turnover, profitability, growth and credibility.

At GCC we treat our clients as our partners; we strive our utmost for the success of our clients. This allows us to stand where we are now with a number of high performing subsidiaries to support our clients completely.

It is our policy to give special attention towards having high quality standards in our enterprise, projects, product and services and to abide by international quality standards.

As proud as we are of our record of accomplishments and completed projects, we are prouder still of the relationship we enjoy with our clients and our partners through their success.

Kassim Abdul Rahman Al Sharafi

Gulf Contractors Company is engaged in a business of Construction, Irrigation, Agriculture and landscape. GCC leadership is committed to protect the Environment, Health and Safety of our staff, employees, interested parties and the community at large and improve the HSE culture in which the company activities are carried out.

Gulf Contractors Company will:

- Determined to continually improve as well as fulfill our commitments that meet the needs and expectations of the interested parties as per organization context.
- Ensuring the safety and welfare of our staff and the protection of our assets.
- Ensuring the prevention of any impact on the environment resulting from our actions.
- Complying with all relevant Health & Safety, Environmental legal laws and other regulatory requirements.
- To maintain work equipment in a safe state and provide both safe systems of work and a safe working environment for employees and all who work on our behalf.
- Periodically review the suitability, adequacy and effectiveness of the HSE management system.
- Make every effort to protect the environment and prevent pollution, to minimize consumption of materials, to promote reuse and recycling of wastes and adopt best practice on waste management.
- Strive to achieve continual improvement through implementation and review of the HSE management system and related performance.
- To prevent accidents and cases of work-related ill-health.
- This policy will be communicated all employees and available at all workplaces.
- Honest reporting of the incident and accident cases.

These commitments will be achieved by:

- Establishing and maintaining a documented Health, Safety and Environment Management System meeting the requirements of clients, authorities, ISO 14001:2015, OHSAS 18001: 2007 and continually improving our performance;
- Adhering to all legal, contractual, regulatory and other identified requirements and obligations.
- Communicating the Company's HSE policy and Objectives to relevant interested parties including its employees, stake holder, clients and customers.
- Providing training in, and promoting awareness of, health, safety and environment to our employees and those under our care.

GULF CONTRACTORS CO. L.L.C.

Gulf Contractors Company leadership firmly believes that quality performance is a key to ensure sustainable success in contracting business by complying with organization context, clients, authorities and Quality Management System ISO 9001:2015 requirements.

Gulf Contractors Company is enthusiastic to meet the highest levels of quality at all its business activities and throughout the organization. Our goal is to practice and promote the best quality standards on all our projects and works by meeting the needs and expectations of interested parties.

Gulf Contractors Company will:

- Satisfy applicable requirements by ensuring that client, projects and applicable statutory/regulatory requirements are determined, understood and consistently met.
- Continual improvement of the quality by ensuring the risks and opportunities that can affect conformity of company products/services and the ability to enhance customer satisfaction are determined and addressed.
- Implement and maintain an effective QMS that provides guidance on objectives and performance standards and ensure that there is strong leadership and very clearly defined responsibilities and accountabilities at all levels of the organization.
- Ensure the quality policy and processes/projects quality objectives are established for the QMS and are compatible with the context and strategic direction of the Company.
- Ensure that the resources needed for the QMS are available; including training, support, work environment and communicate the importance of effective quality management system in conforming to the ISO 9001:2015 requirements.
- Communicate this policy to all employees, interested parties and available at all workplaces.
- Employees and other interested parties are expected to co-operate and assist in the implementation of this policy through teamwork, which will lead them to improve their and organization performance.

Quality, Health, Safety & Environmental Policy Statement

This policy has been developed to be consistent with the Gulf Contractors Company (Irrigation, Agriculture & Landscape) L.L.C work activities and ethics. We are committed to continual improvement in our safety, environmental, Quality and health (QHSE) performance and the identification of hazards associated with our organization and to reduce to a level of acceptable risk. We will set goals, measure progress, and communicate results to all concerned. Compliance with this policy is the responsibility of the signee, every employee, Sub-contractor and guests. This Policy applies to all who either both direct and indirect involvement in our projects/organization.

Specifically we commit to the following:

Employees, Sub-Contractors and Guests: We will commit in providing a safe and healthy workplace striving to prevent injuries and illness, promoting healthy life styles and encouraging respect for the environment. We will ensure our employees; Sub-contractors and guests have the awareness, skills and knowledge to carry out this policy. Achieve continues improvement in QHSE through effective preventive means, education, auditing, training, consultation, constant monitoring, evaluation, reward, recognition program and review to ensure adequate levels of competency are maintained.

Compliance: We will meet all applicable International (ISO 45001:2018 and ISO14001:2015), National standards and Local Legislations, AD OSHAD SF technical guidelines and Code of Practices relevant to the state project locations of Gulf Contractors Company (Irrigation, Agriculture & Landscape) L.L.C.

Environment: We will conserve and maintain the natural parts of our working sites in order that we protect ecological habitats. We will determine our environmental aspects and fully assess the impact on the environment before starting and during all projects. We will maintain emergency plans, to ensure a rapid response against the potential for on and off-site environmental impacts.

Quality: Delivering optimal quality performance in all aspects of our business and strive to provide high quality services and product which surpass our clients expectations from the first time and every time through the application of proven quality principles at all levels of our business.

Integration: We will integrate all QHSE principles into all our operations activities. We will integrate hazard prevention / reduction, pollution prevention / waste minimization, resource conservation, and compliance into all our planning and decision making. We will adopt cost – effective practices that eliminate minimize or mitigate environmental impacts and control safety, Quality and health risks and vulnerabilities

Sustainable Development: We will strive to conserve resources and minimize or eliminate adverse QHSE effects and risks that may be associated with our operations. We will manage our programs in a manner that protect the ecosystem and employee / public health.

In addition to these, this policy will be made publicly available through a variety of measures to ensure adequate communication to relevant interested parties. Adequate planning, monitoring and review of the implementation of this QHSE policy will be carried out.

The company has mobilized substantial resources to achieve its standing and further its goals. At present, it uses equipment and machinery worth well over 50 million Dirham's in value and has over one thousand persons on its payroll.

In addition, several affiliated and sister companies are adding breadth to the scope of activities that GC can successfully undertake, particularly worth mentioning are;

Gulf Tunneling Company: whose technique allows non-destructive method of construction service between 400 mm and 2400 mm in dia.

Baniyas Concrete Products Industries: manufacturing concrete pipes from 400mm to 2400mm dia.

Section 1

Company Details & Introduction

Union Pipes Factory: manufacturing HDPE/MDPE Polyethylene pipes.

In conformity with the prescriptions of ISO 9001-2015 and its own, GCC executes projects in complete accordance with contract requirements and customers' needs as may be applicable.

GC has accumulated market knowledge and experience to provide a professional and efficient service in all stages.

GCC is committed to Progress and Excellence.

Business Principle of Gulf Contractors

- Our customer's interest is always our first priority. Our success comes from their satisfaction
- Our people our capital and our reputation are our assets. We know that if any of these is ever diminished the last one is the most difficult to revive. We are fully dedicated to the latter and spirit of the specifications of the contracts we are signing to the rules and to the ethical principles that govern the contracting industry. We know our continued success depends on this dedication.
- We are proud of the quality of our works. We are totally committed to achieve excellence in all our projects, if a choice is to be made between quantity and quality we shall attempt to the best rather than the biggest.
- We seek creativity and innovation in all our activities always seeking better solutions to project requirements. We have successfully innovated in the country and in the business and believe that our continued success depends on our ability to continue doing so.
- We make a special effort to employ the best person for every job because the best people make the best companies.
- Teamwork comes first in all we do, individual creativity is encouraged but we have experienced that team work gives the best result; the interest of the company and of its customers come before personnel interests.
- Our people are dedicated to the company and strive for its success more than people make the best companies.
- Our profits are essential to our future they expand our capital, increase our resources, attract and keep our best people. Our policy is to share generously with those who have helped create the profits because this is a key of our future achievements.
- We want and can be as big as required for any project but we always want to preserve the contract, the team spirit, and the loyalty that prevails between our customers and us.
- Integrity and honesty are the heart of our business. We expect our people to maintain high ethical standards in everything they do, in their work and their personnel lives.

Strategy, Mission and Vision Statement

Values

"Throughout our history, we've helped our clients get more out of their construction investments by working closely with them. We have listened to their needs and made suggestions based on our experience to save them money and time with their projects.

We have become expert in such areas as construction planning, materials, technology and methodology. Our people bring tremendous expertise to what they do.

That knowledge has repeatedly translated into specific benefits for project owners. The following statements represent Gulf Contractors' Way of doing business:

- o We conduct all business openly, honestly and fairly.
- o We are available at all times to address any client concerns.
- o We make quality a cornerstone of each client's project.
- o We use all available and appropriate resources to achieve rapidly the goals of our clients.
- o We embrace advances in construction methods/materials technology to maximize the benefits for our clients.
- o We provide reliable, dependable solutions using our proven tactical (or -strategic) process.
- o We thoroughly implement "Safety First" policy and procedures.
- o We work to protect and enhance our natural surroundings.
- o We are conservative in protecting our clients' investments, progressive in staying ahead of trends, and flexible by adjusting to fluctuating market cycles.

Mission

- o Our mission is to create a vibrant environment for all members of society. As a company, we will be a good corporate citizen, providing high quality service at reasonable prices.
- o We will pioneer the creation of new value, meet our clients' needs, respect a diversity of views and ideas, and honour the relationship of humanity in the natural environment.
- o We will encourage open communication that promotes project success, and facilitates an honest exchange of information between our clients and our Project Teams, allowing us to best achieve each owner's particular project objectives.

Vision

"GCC's corporate envisages vision to be recognized by our clients as being ""best in class"" in providing innovative approaches, construction solutions, value added and cost effective construction industry.

Clients

Our major clients include the Oil Companies – ADNOC, and ZADCO, GASCO, Department of Social Services & Commercial Buildings, Department of Military Works, Public Works Department, Abu Dhabi Municipality, Abu Dhabi Services Company (MUSANADA), and other governmental and private clients.

Core Strength

"The Company has mobilized substantial resources to achieve its standing and further its goals: at present it uses equipment and machinery worth well over Dhs. 50 million (c. US\$ 14 million) in replacement value and has over two thousand four hundred persons on its payroll. In addition, several affiliated and sister companies are adding breadth to the scope of activities that GCC can successfully undertake. Particularly worth mentioning are Gulf Tunnelling Company (whose technique allows non-destructive method of construction services between 400mm and 2400mm in dia), Baniyas Concrete Products Industries (manufacturing concrete pipes from 400mm to 2400mm in dia.), Union Pipes Factory (manufacturing HDPE/ MDPE polyethylene pipes)."

Quality

In July 2001 GCC has successfully become the ISO 9001:2008 certified, further confirming our dedication to our core ideals of time, quality and cost effective projects. With an eye for quality, integrity, and customer satisfaction, GCC now has a recognized, comprehensive system through which to better achieve those goals more effectively and systematically. Besides, effective 27 July 2009 GCC achieved the ISO 14001:2004 and OHSAS 18001:2007. These new certificates are the result of the strong commitment of GCC to pursue a sustainable development model with low impact on the environment.

Quality Core Strengths

In conformity with the prescriptions of ISO-9001-2008 and its own policies, GCC executes projects in complete accordance with contract requirements and customers' needs as may be applicable. GCC has accumulated market knowledge and experience to provide a professional and efficient service at all stages.

Our People

Developers and owners come to Gulf Contractors in large part because we know our territories. By operating extensively in the construction of Buildings & Mega-Infrastructure Projects, our locally based staffs have the expertise to know how to navigate around any obstacle and how to achieve a successful result on time and on budget.

Each Gulf Contractors team brings a multi-disciplined approach to each project. Each is composed of well-trained, experienced specialists who understand all aspects of the building process. We believe this team approach truly embodies the concept, "The whole is greater than the sum of its parts."

Our management has vast experience with both fixed price and negotiated projects. Clients can be assured that they will be getting highly qualified, capable professionals, who will properly manage every detail of the work.

Clients can also be comfortable in the knowledge that they will have ready access to all key team members. Our core value ensures that clients receive prompt personal attention on even the smallest of issues.

At Gulf Contractors, our senior managers average 25 years of industry experience. Clients can speak with any of them at any time about any aspect of their project.

Safety

Gulf Contractors is committed to constructing exceptional buildings in a clean, safe environment. This philosophy is clearly evident in all aspects of our operations. From the office to the jobsite, our health and safety program requires the full participation of all team members to ensure the protection of all people, property and equipment.

To aid in achieving this goal, Gulf Contractors employs a dedicated Safety Leader to implement our comprehensive Injury and Illness Prevention Program and Gulf Contractors Safety Procedures. This program is in full compliance with the International Code of Practices and Regulations as well as the UAE Federal Regulations and is designed to accomplish the following:

- o Identify the Field or Onsite Safety Coordinator as the responsible party for day-to-day safety implementation on the jobsite.
- o Identify and evaluate jobsite hazards, for the protection of Gulf Contractors employees and subcontractors, as well as the public and all other involved parties on the jobsite.
- o Establish methods for rapidly correcting potentially unsafe conditions, including inspections, checklists, and regular jobsite safety meetings.
- o Implement ongoing safety training for employees.
- o Develop a system of communication and feedback to ensure that employees comply with the safety program.

Building Green

Gulf Contractors Construction's commitment to green comes from the long-standing mission of the Company, to protect the environment, preserve historic scenery, and create attractive public and private spaces that create a vibrant environment for all members of society.

As Green or Sustainable Design and Sustainable Construction rapidly become common practice in many market sectors and industry standard in others, Gulf Contractors' International J.V. Partner (GDM-Italy) has taken the lead in the construction of numerous LEED® Certified Projects in Europe. We understand and can effectively implement all construction-related and site prerequisites and have experience with construction of many of the innovative systems designed to achieve the maximum level of LEED credits for your project.

Gulf Contractors J.V. has multiple LEED® Accredited Professionals on staff that can help you understand the technical requirements, owner-end-user benefits and true cost implications of implementing Sustainable Design practices in your project.

As sustainable technology and building practices rapidly expands for both new construction and renovation in multiple market sectors, you can count on Gulf Contractors J.V to diligently work as a team member, or team leader, in implementing your next sustainable project.

NB.: LEED (Leadership in Energy and Environmental Design) standard for green building design developed by USGBC (US Green Building Council)

Process

Each project has a start, middle and completion. We begin by listening to what our clients want. We make sure we have accurately defined their needs and initiate an evaluation process that includes such factors as the client's corporate culture, business goals, critical success criteria and marketing strategies.

We meet with key client team members to verify short and long-term objectives, expectations, projected construction schedule, costs and logistics. The process includes contingency planning that anticipates and adjusts for operational and organizational changes. The project establishes clear lines of communication, as well as methods to, rapidly and effectively, resolve problems as they occur.

Company Social Responsibility Strategy

Gulf Contractors and its employees have a long history of community involvement. Through annual Islamic donations (Zakat - Alfitr & Zakat Al Mal) a total of more than 2.5 % of the company's net revenues, benefiting many charity, people and sectors of the society, We want to remember that the people in the communities may not have the same opportunities to achieve their dreams. As a company of caring individuals, we strive to support these communities and experience the satisfaction of giving something back.

Executed & Ongoing Projects

AL RAHA BEACH EAST DEVELOPMENT PUBLIC REALM AND PEDESTRIAN BRIDGES CONSTRUCTION

CLIENT : Aldar Properties
CONSULTANT : Hyder Consulting Middle East
PROJECT VALUE : Dhs. 241,409,523.80
PROJECT DURATION : 27/12/2015-30/09/2017
PROJECT FEATURES:

A. Public Realm

- Hard Landscaping Works
- Asphalt works
- Piling Works
- Sea wall Construction
- MSE Wall (Mechanically Stabilized Earth Retaining Walls)
- Planter Wall Construction
- Retaining wall Construction
- Modular Block Wall Construction
- Water Features
- Soft landscape works
- Secondary + tertiary Irrigation (Landscape Irrigation)
- Landscape accent lighting + associated cabling
- Street furniture such as bollards, bins, benches, etc
- Play equipment
- Wooden Decking
- Play areas and surfacing
- Shade structures
- Signage + way finding
- LRT Screening
- Operation and Maintenance
- Remedial Works to existing ARBE Landscape Works

B. Pedestrian Bridge

- The construction of 2 No's steel box-girder pedestrian bridges with aluminum cladding, stainless steel balustrade and composite timber walkway crossing canals and walkways including piling and concrete works
- Hoarding and Screen Walls

Al Raha Beach East Development Public Realm and Pedestrian Bridges Construction Works

CONSTRUCTION WORKS FOR REEM CENTRAL PARK

CLIENT : Aldar Properties
CONSULTANT : Hyder Consulting Middle East
PROJECT VALUE : Dhs. 152,500,000.00
PROJECT DURATION : 16/11/2017- 03/12/2018
PROJECT FEATURES:

Reem Central Park site covers an area of 78,378m² of land with a length of approximately 200m. The Site is bordered on three sides by residential and commercial towers, and open to the canal and mangroves system of the Abu Dhabi Island on the other.

- The project shall consist of a park, retail and mosque.
- The park will incorporate a range of amenities, including sports facilities and distinctive features for residents of Shams and visitors alike. The park will enhance the proposed canal and accentuate the beach front promenade. The existing canal structural to the west part of the Site will be demolished and replaced with park land.
- The retail development of 7,500 m² GFA will be provided within the close proximity to the beach front with connectivity to the beach, park and mosque. The retail development will have associated parking. The promenade will be predominantly F&B.

- Pedestrian Bridges
- Tensile Shade Structures
- Multi-purpose skate park
- Playground, Play Equipment and Fitness Equipment
- Water Features and Plant rooms
- Retail and associated external works
- Sea Wall and associated Works
- Gabion Wall and associated Works
- Retaining Wall and associated Works
- Mosque and associated works
- Landscaping Works
- Roadworks
- Irrigation Network
- Potable Water Network
- Sewer Network
- Storm Water Network
- Electrical Network (MV & LV Network)
- Street Lighting
- Telecom Network & Security Network
- Ancillary Buildings

ABU DHABI CORNICHE SWIMMING BEACH

Project Title: PRFD Contract No. 371- Relocation of 7 Numbers Storm water Outfalls and Construct Sewerage Pipelines and Pumping Station in Abu Dhabi New Beach.

CLIENT : Abu Dhabi Municipality Parks and Recreation Facilities Division (PRFD)
CONSULTANT : Hyder Consulting Middle East
PROJECT VALUE : Dhs. 153,000,000.00
PROJECT DURATION : Six months

PROJECT FEATURES:

Hard Landscape Works:

- Paving of Pre-cast concrete tiles
- Furniture and fittings
- Timber board walk
- Concrete plaza flooring, concrete steps and Landscape wall
- Children's play area

Soft Landscape Works:

- Planting of Palms, shrubs & ground covers including backfilling
- Maintenance and after care 360 days

Irrigation Works

- Automatic Irrigation networks
- Maintenance and after care 360 days
- Irrigation mainline, sub-mainline and lateral

Building Works:

- Toilets at beach 7 Nos.
- Beach Towers 7 Nos.
- Galleria Building 2 Nos
- Kiosk at Corniche galleria 2 Nos.
- Toilets at Corniche Galleria 2 nos.
- Prayer room at Corniche Galleria 1 No.
- Maintenance room/ garbage room 1 no.
- Supply and installation of cables
- Supply and installation of Portable Water system
- Supply and installation of Drainage system

Building

- Electrical Works
- Supply and installation of Landscape lights
- Umbrella lights 170 nos.
- Up lights to palms 300 Nos.
- Runway Lights to Board walk 1000 Nos.
- Bollard Lights 1000 nos.
- Supply and installation of complete electrical system

Infrastructure Works

- Storm water pipeline works - Sewerage pipeline works - 7nos. out falls connecting to new line.
- Underground Pumping station – 2Nos.
- Construction of Manholes - Odour chamber - MCC room – Inlet

ABU DHABI CORNICHE SWIMMING BEACH

Project Title: PRFD Contract No. 371- Relocation of 7 Numbers Storm water Outfalls and Construct Sewerage Pipelines and Pumping Station in Abu Dhabi New Beach.

HIDD AL SAADIYAT VILLAS DEVELOPMENT

CLIENT : SAADIYAT DEVELOPMENT AND INVESTMENT COMPANY
CONSULTANT : Cracknell
PROJECT VALUE : Dhs. 112,000,000.00
PROJECT DURATION : 4/3/2016 To 8/2/2018
