PROFILE

KNOW A LITTLE ABOUT US

Welcome to The Contract Furniture Company, a Dubai-based manufacturer and supplier of bespoke furniture for the hospitality industry and premium residences in the Middle East. We believe that the design and quality of furniture adds immense value to ambience, and thereby to customer experience. With decades of experience catering to diverse clientele, designers, and suppliers, we understand what it takes to deliver distinctive décor.

We offer the option of curated products from vetted suppliers and customized manufacturing based on your design requirements. Whether you are looking for a rustic, contemporary, fusion or classic look – we can make it happen!

HOW WE WORK

Our services can be tailored to suit specific needs and budgets:

- Liaise with your existing design team (architects, interior designers, contractors) to obtain design brief and manufacture accordingly.
- Provide bespoke pieces from the TCFC catalogue.
- Provide design services through our network of seasoned designers – local and international.
- Provide end-to-end design, manufacturing, and installation service.
- Furniture restoration.

OUR VALUES

We understand how overwhelming it can be to bring spaces to life with original creative spirit. In a competitive world, design can truly set a brand apart. TCFC aspires to help you do this while bearing in mind the practical constraints like time and money.

When you choose TCFC, we listen to your expectations, budget, and schedule and plan accordingly. Our collaborative style ensures we are aligned through the entire process.

WHAT YOU GET

TCFC focuses on delivering products that are in sync with your business vision. Every single piece that comes out of our unit will be unique, comfortable and above all - durable.
