SHOPFITTING & RETAIL ARCHITECTURE

DUBAI | RIYADH | LONDON

About Us

14 Years LUXURY RETAIL

With a heavy focus on creative design from our dedicated CAD & 3D design team, we can bring your retail space to life and maximize the functionality and aesthetics of your store to ensure your customers have the best shopping experience possible.

Our 42,000 sq.ft., in-house manufacturing facility, in Dubai and 38,000 sq.ft. facility in Saudi Arabia, adds a competitive edge to our unique business model. With a well experienced network of Project managers, Artisans, skilled labor, designers and well versed installation teams, we ensure the process from Design to Delivery is as smooth as possible.

We create, grow, build, and revive brands using a rich mix of design, engineering, quality craftsmanship & value engineering.

Truly in the Design & Production industry there is no limit to creativity, complexity and evolution. There is NO box. Just limitless solutions.

Serving the Middle East & North Africa retail sector since 2007, Tripod MENA has established a reputation for being a market leader in Turnkey Retail & Visual Merchandising installations.

Through a unique mix of traditional skills and cutting-edge technology, we have developed over time a distinctive range of services, to help elevate the possibilities of design & production for our esteemed clients.

TURNKEY SOLUTIONS

Innovative design solutions, responding to individual client's needs.

- Full site surveys, space planning
- Fixture Inventory and Area planning
- Constant client and Architect consultation
- Procurement planning
- Fully-qualified workforce
- HVAC
- Networking
- Safty & security systems

Tripod MENA is focused on complete turnkey solutions for Retail, Commercial, Hospitality, Residential & Museum projects. This distinctive creative edge is further enhanced by highly competitive proposals, well experienced installation teams, safe & accessible storage facilities & well spanned logistical awareness & capabilities.

Joinery & Upholstery

Our in-house joinery design capabilities ensure seamless coordination and the highest level of finish as all touch points are internally controlled throughout the entire manufacturing process.

As joinery forms a very significant part of the fit-out process, it becomes crucial to ensure accuracy and quality of shop drawings.

Our custom joinery drafting encompasses building products that are intended for decorative purposes and engineered-to-order. After studying the architectural drawings, the necessary shop drawings are prepared by our draughtsman to be executed by our manufacturing teams.

Our precision woodworking divisions have machining, polishing and assembly capabilities which allows us to create complex and bespoke joinery items. The machining process integrates CAD drawings with CNC routers and machines, enabling Top Rock Interiors to provide tailored solutions for all our customer's needs.

As part of the assembly process, and with the assistance of our experienced polishers and painters, the finished product is prepared to any specification.

In all our facilities, the entire production process is overseen by our production managers and supervisors, from planning to onsite installation of the completed product.

Our expert upholsters works in a variety of materials whether it is the luxurious appearance, wide choice or durability of natural leather or synthetic material technologies that meet all your requirements and performance expectations or woven, non-woven and knitted interior fabrics in a wide variety of applications.

We offer a full-service portfolio of tailor-made solutions that add style and performance to your project furnishings, fabric panelling, sofas and bench seating. The finest materials are used with high density foam on plexi or solid wood frames.

Metal

Decorative metals, specialized mild steel, stainless steel, structural steel, and glazing are disciplines we specialize in.

Our in-house capability to integrate metal, glass and aluminum into products gives Tripod MENA unrivaled abilities.

We offer advanced technology that allows us to balance the mechanization of the process with manual work where needed.

Our factories consist of a full range of steel fabrication, bending and steel milling machinery.

Tripod MENA metal divisions are capable of providing an array of finishes including custom polishing and powder coating.

Our custom metal works includes stainless steel kitchen surfaces, balustrades, wall claddings, decorative furniture, signage, display units and light boxes.

Glass

Tripod MENA glass division offers glass cutting, polishing, straight and round beveling, plain and engraved sandblasting, curved glass, frameless shop fronts and double-glazed installations.

Our manufacturing process is guided by foresight, planning and robust engineering.

Marble & Stone

Our experienced team of artisans ensures that every aspect of your interior or exterior installation project is completed to the highest standard.

Tripod MENA offers personalized and professional solutions for marble and stone projects through selection, supply and installation.

Our marble and stone services include staircase designs, marble & stone solutions, waterproofing, stone works, floor leveling, grinding and interior and exterior tiling.

We can provide flawless installation of iconic flooring with intricate patterns, carved columns, wall covering, domestic and commercial countertops, vanities, mosaics, patterns,

boarders, threshold, designed profile skirting, shower niches window sills and backlit panels.

Our skilled craftsmen have experience working with marble, granite, agate, onyx, travertine, quartz and natural stone.

Your stone or marble selection can have a honed, brushed, flamed, tumbled, sandblasted, cleft, vintage, split face, natural, pickling, bush-hammered, leathered, rigato or tumbled finish.

We can provide edge finishes in half round, full round, pencil round, OG, chamfer, 2+2 counter top face or any specific profile design.

Solid Surface

We frequently use Solid surface materials for seamless surface cladding installations as it mimics the appearance of granite, marble and other naturally occurring material.

Due to its unrivaled performance, the industry has grown exponentially and our in-house team and expertise in solid surfaces has grown accordingly. Tripod MENA's artisans can shape and install functional and decorative surfaces for any possible scenario across any project.

Our dedicated teams are trained in surface fabrication, a distinct professional enterprise that involves complex tasks of surface shaping through cutting, drilling, sculpting and bending.

Surface fabrication takes place in our factories, after which the

finished product is assembled and installed at site. We are able to create seamless results through having a wealth of experience in doing multi-part surface installations which involves complex work with specialized tools.

We advise our clients on the various advantages of solid surface materials:

1. Non-penetration
2. Chemical resistance
3. Scratch resistance, stain resistance, heat resistance
4. Anti-bacterial
5. Seamless joins
6. Easy maintenance
7. Yellowing resistance
8. Well bending
9. Freely ease of fabrication and design
10. 100% renewable and repairable

Electro Mechanical & Civil

Tripod MENA offers a complete Mechanical, Electrical and Plumbing engineering service from initial client meetings to energy survey's and preparation of working drawings through to installation, testing and completion.

These services include:

- Engineering, Consultancy, Technical Assistance, Maintenance and Procurement.
- Design, Prefabrication, Erection and Commissioning of all kinds of new installations up to final completion.
- Full range of Training, Operating and Maintenance Services including supply of equipment, consumables, spare parts.

Our MEP managers and engineers understands the dynamics of fast-track schedules and rigorous construction standards and that these three technical disciplines encompass the systems that make buildings suitable for human occupancy.

Mechanical Scope of Works

Air Condition and Ventilation

- Unitary Cooling (Split Units)
