

The
Scribble
Lab

ABOUT US

The Scribble Lab has been established by Nasheman Zargar, a talented, passionate, and ambitious Interior Designer, who leads the organisation as Chief Designer and Founder.

With an eye-for-detail, Nasheman takes utmost pride in taking-off in this industry at a very young age to satisfy her passion for designing, and for foraying on her own. Her ideology of synthesizing creative, customised design concepts for every project, has resulted in the creation of The Scribble Lab, a boutique interior design studio based in the UAE, and catering to clients across the GCC region.

Having worked for renowned design brands including XBD Collective, Swiss Bureau Interior Design & Ellington Properties Design, Nasheman also gets her creative skills from her fine arts background, that complements her ability to translate raw ideas to workable designs. Plus, her experience in the market has enabled her to work with many reputable and prestigious names like Emirates NBD, Transmed, Al Hilal Bank, Roche, British Volt, and Hitchki, as well as with affluent individuals.

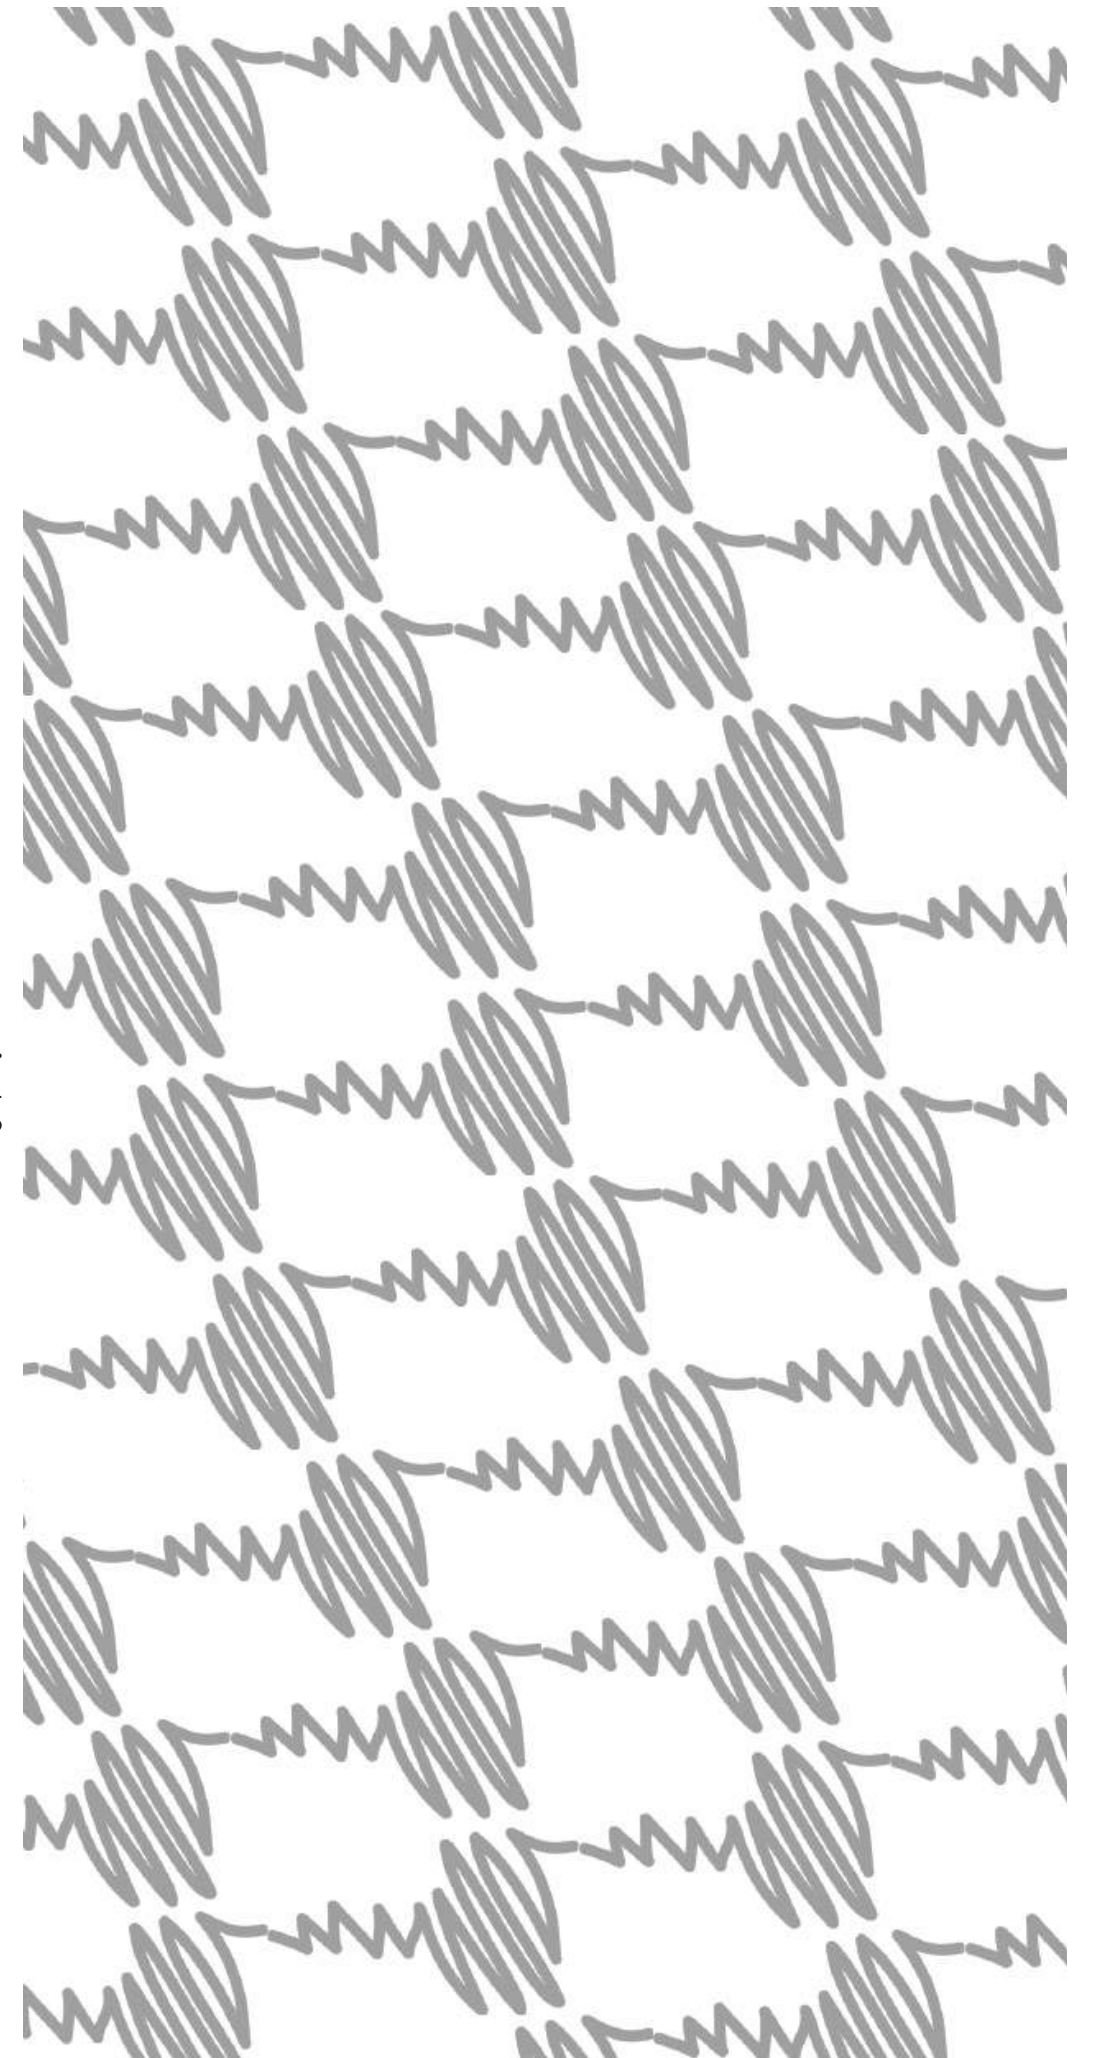

Reflecting her strong beliefs and philosophy, The Scribble Lab stands for its value driven, detail oriented, and functional designs. We are dedicated to deliver incredible spaces and to keep adding to our list of happy clients.

“Details make perfection, and perfection is not a detail.” - Leonardo da Vinci

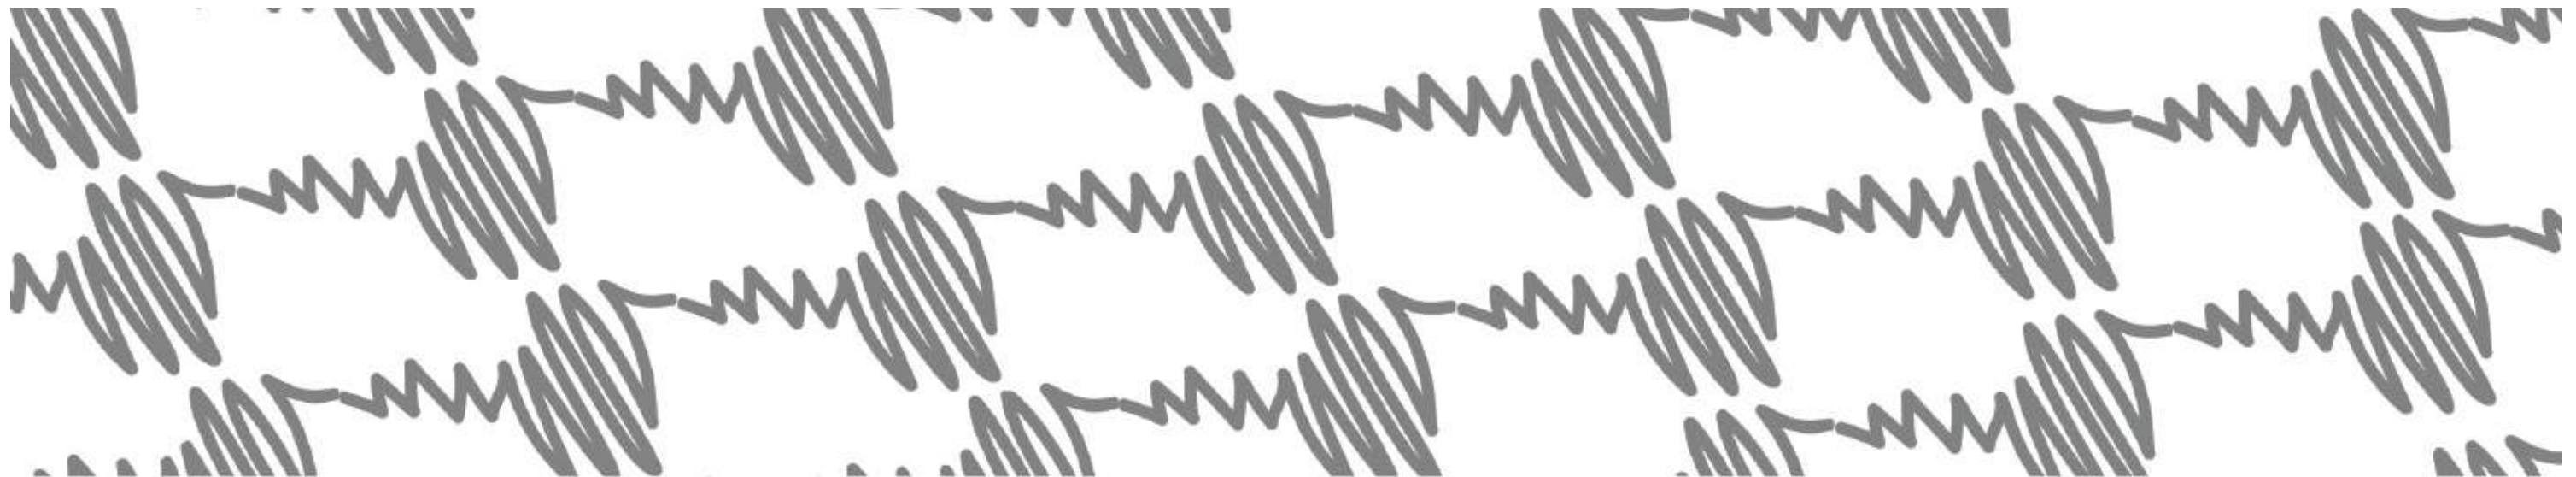

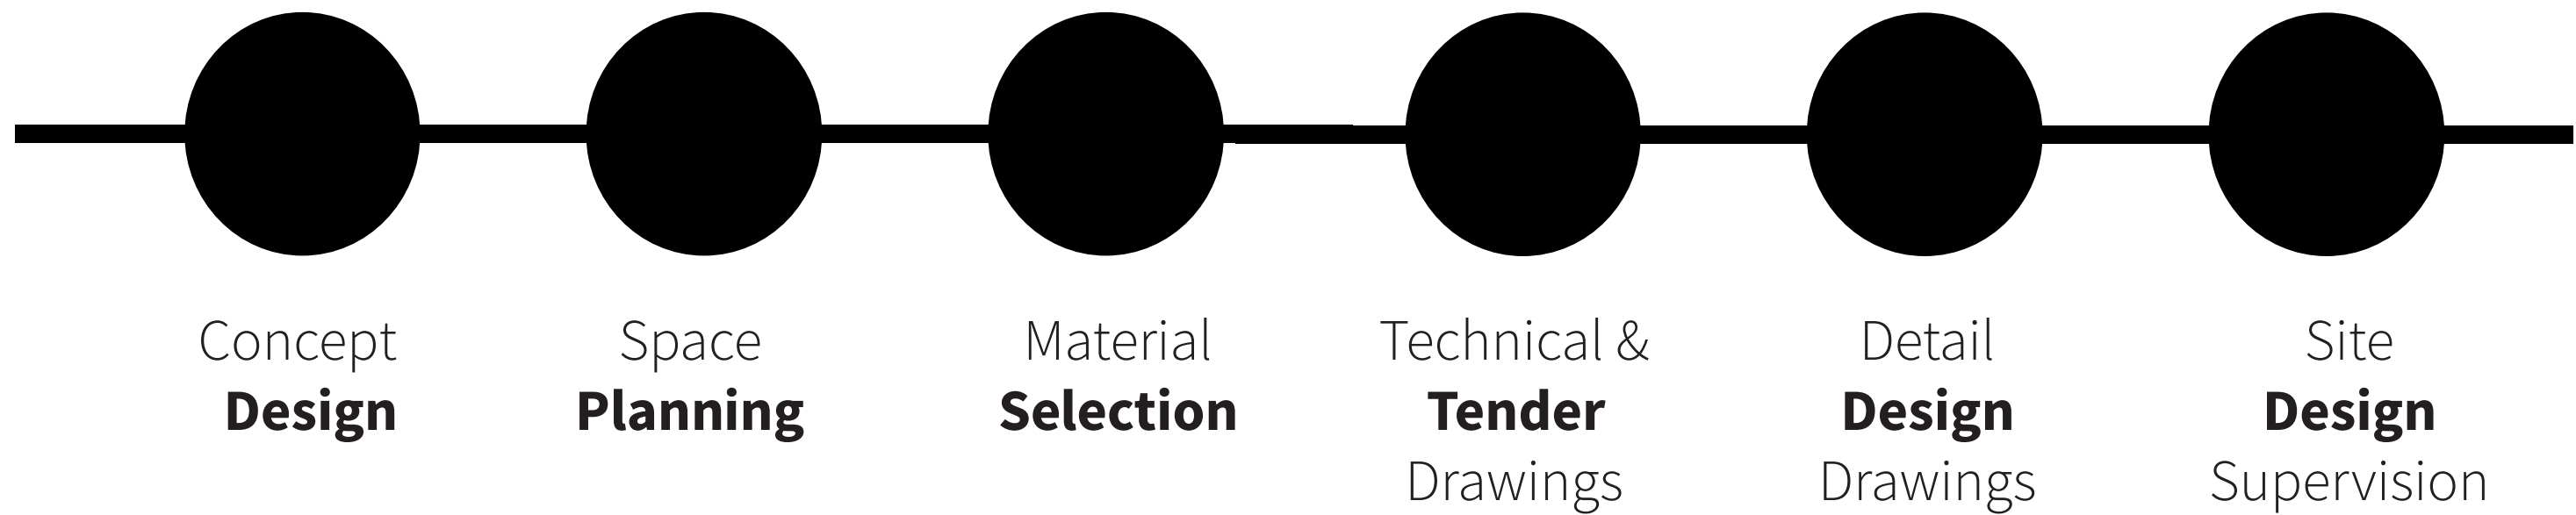

OUR **PHILOSOPHY**

‘Scribble’ stands for the simple illustration of design and the very the first step towards penning down an imagination into something tangible, for the world outside a thought. It helps one to step out of the ‘creator’s block’ and gives wings to creativity, thus making it easier to arrive at the intended design. We use the same philosophy while designing for our clients, which helps us in understanding our clients’ needs, better.

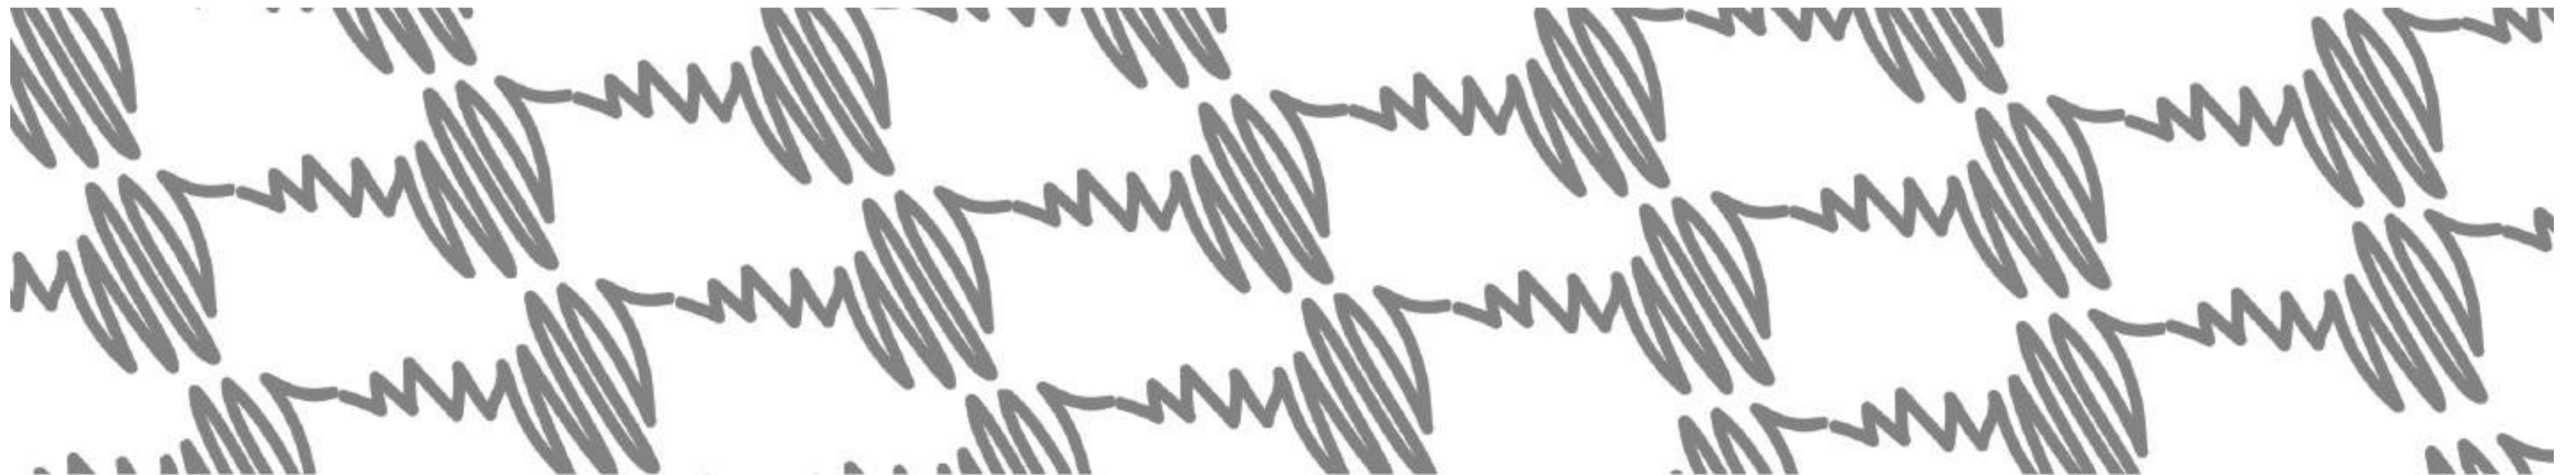

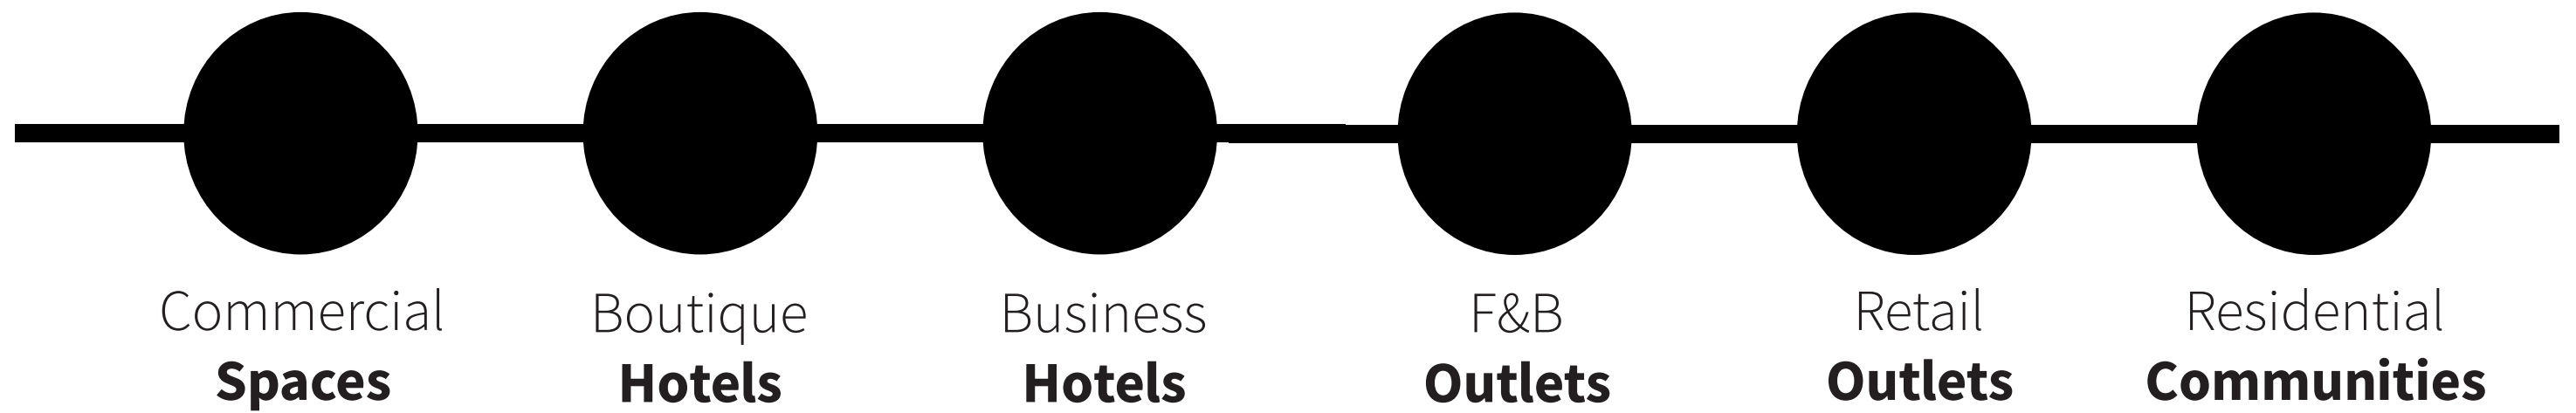

Our designs stem from the concept of simplicity, minimalism, elegance, creativity, and sophistication, while still keeping our deliverables cost-effective. In short, we would like our clients to have the best of both worlds: world-class design with affordability. We are a team of young, passionate and enthusiastic people, and we ensure that our passion and enthusiasm reflect in our every project, regardless of its size or value.

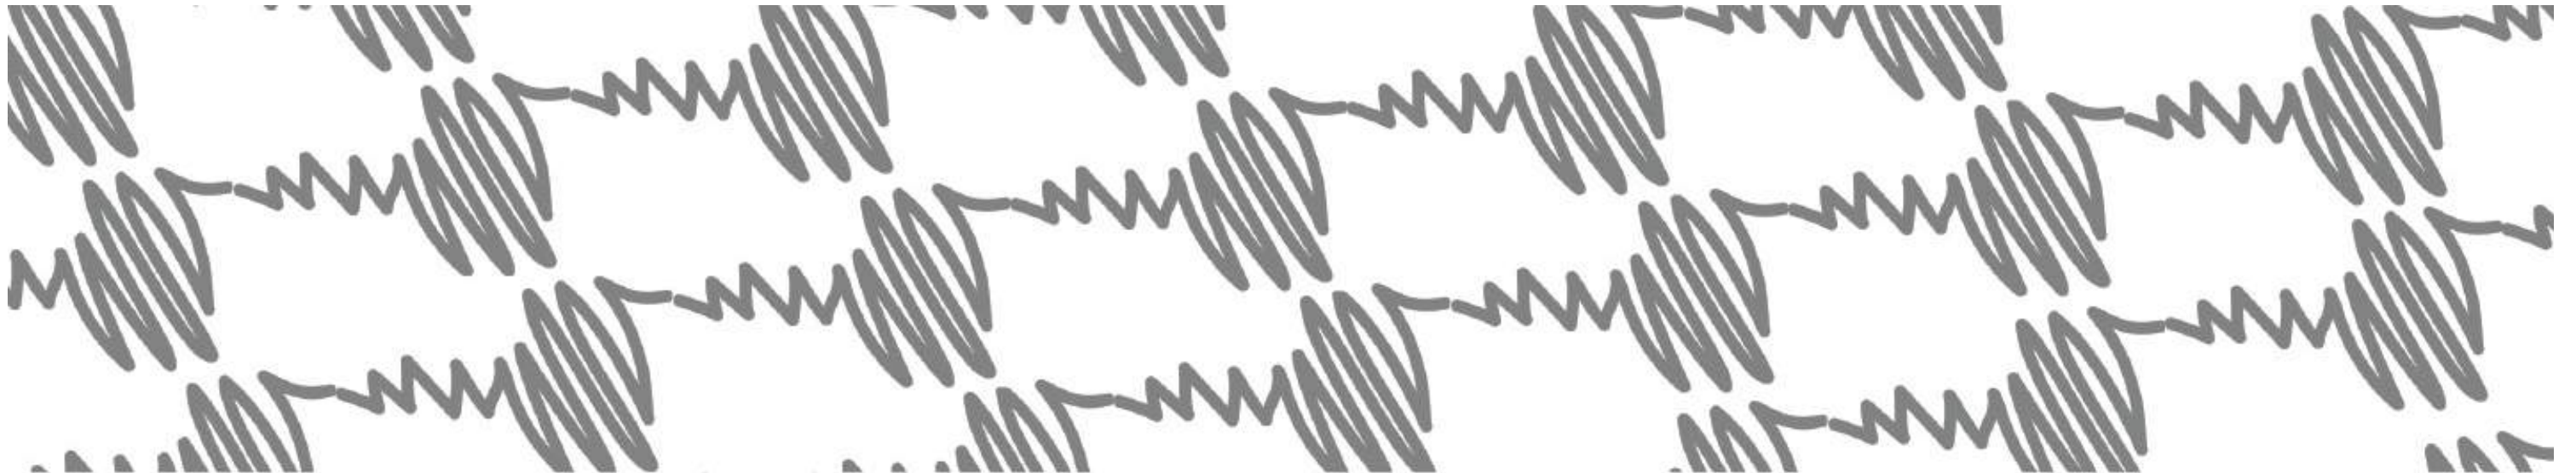

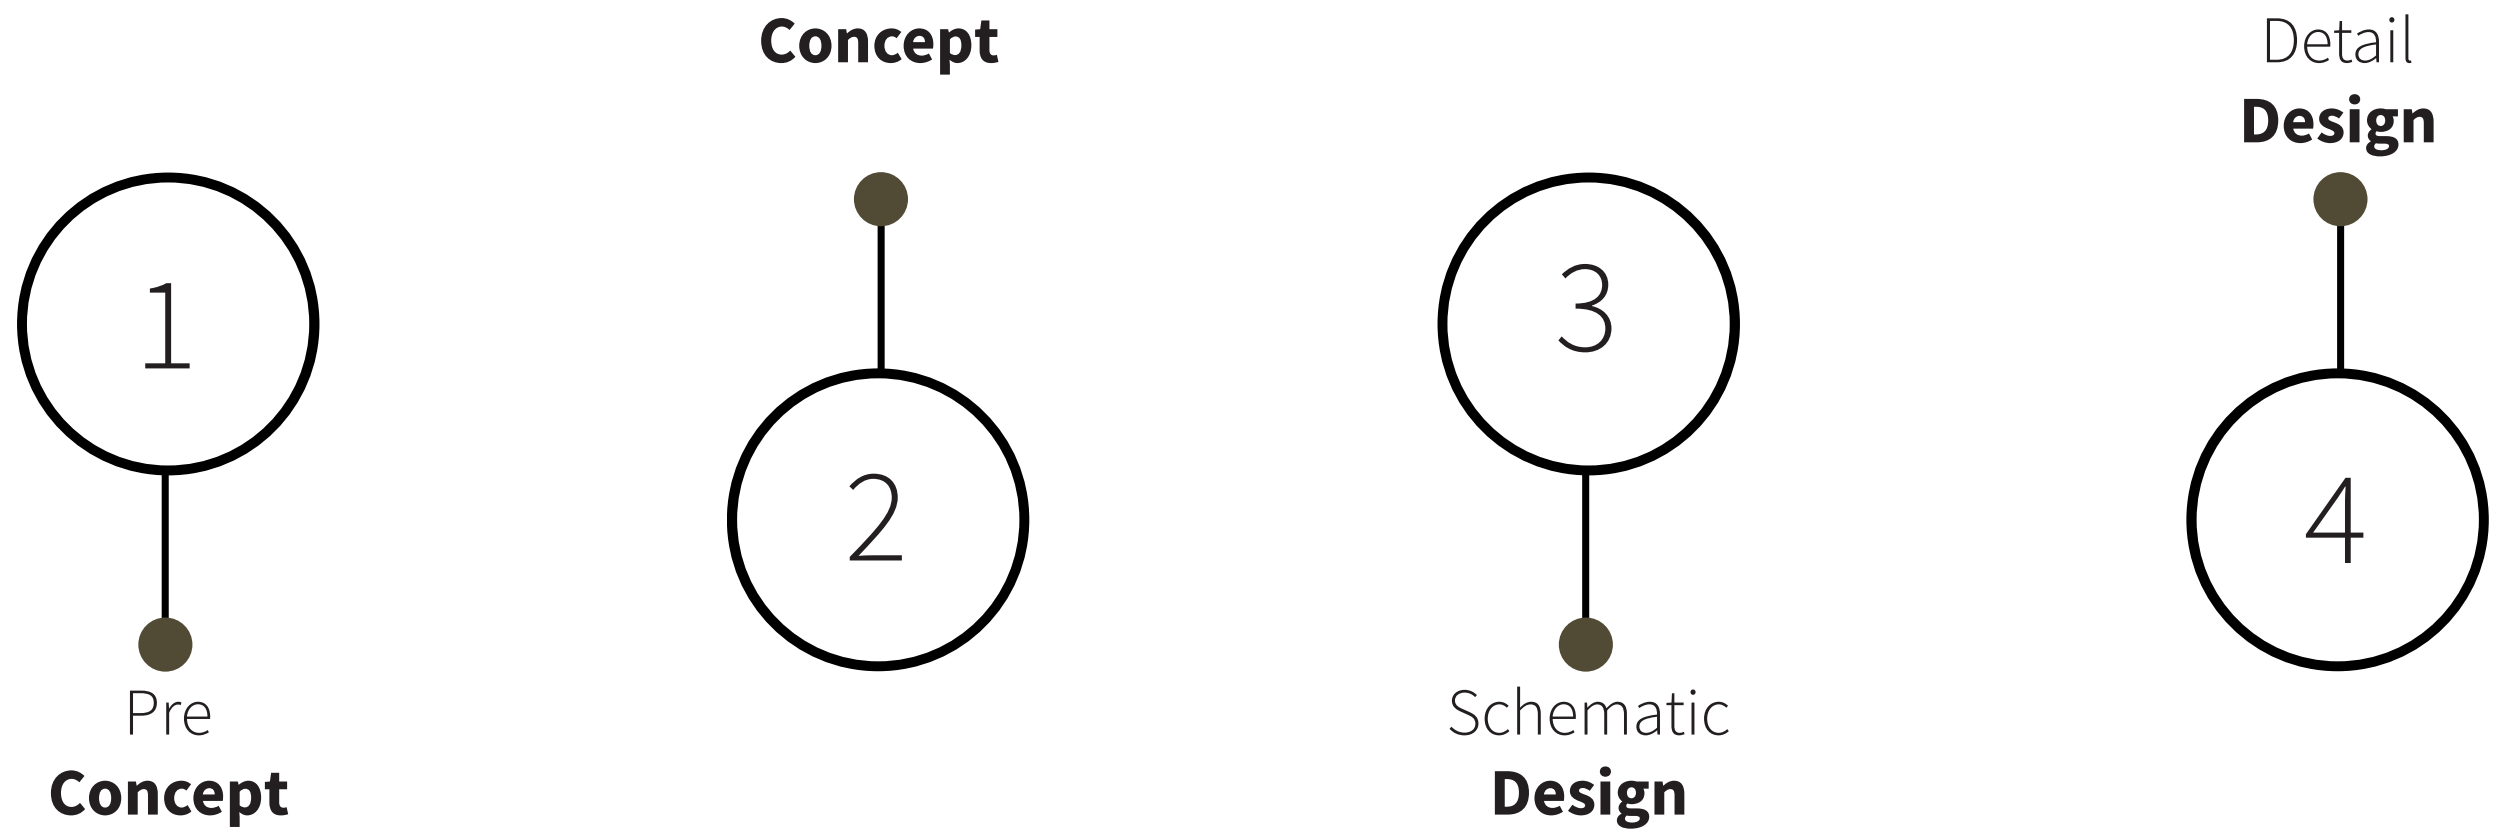

OUR SERVICES

INDUSTRIES

DESIGN PHASES

COMMERCIAL **PROJECTS**

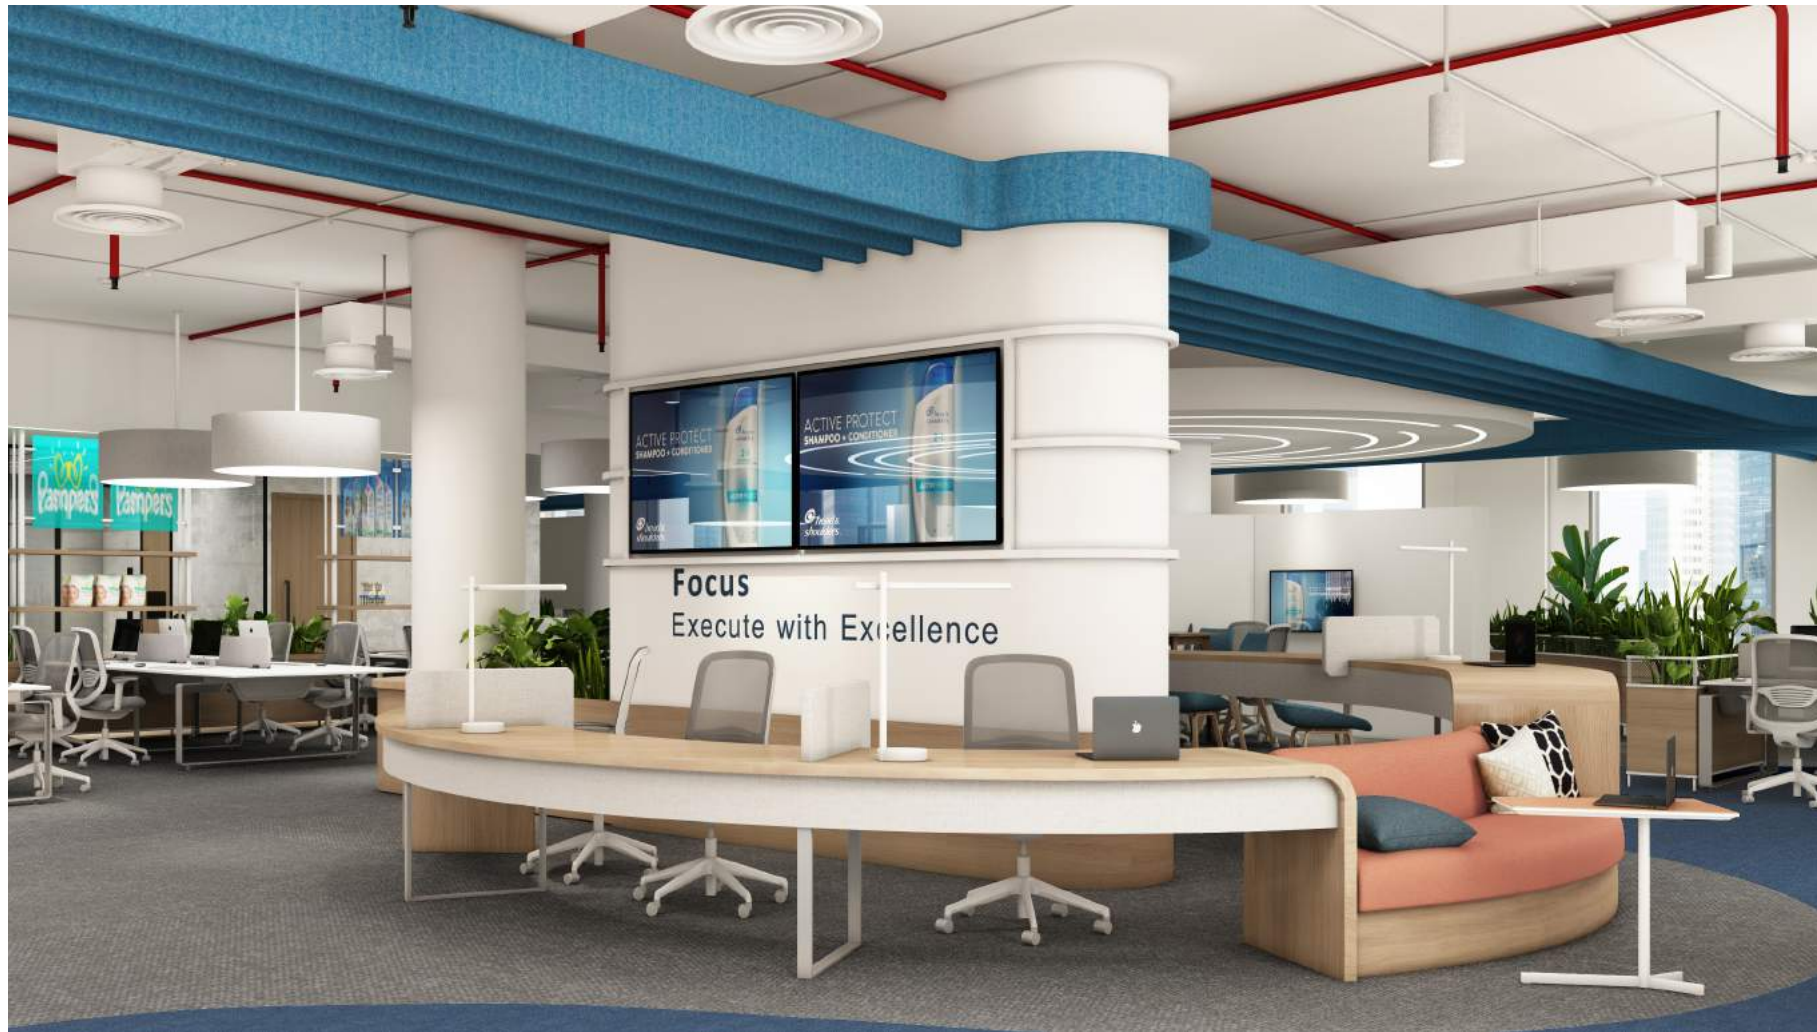

ROCHE RIYADH KSA

Roche is a Swiss multinational healthcare company that operates worldwide under two divisions: Pharmaceuticals and Diagnostics. This workplace offers variety of spaces that support different ways of working, employees get tailored work experiences that fits best to their needs. Apart from the use and size of spaces, another factor contributing to the diversity of this workspace is character. It is formed by mixing different materials, colours, proportions, type and temperature of lighting, furniture type, etc. Depending on the task to be carried out, some spaces have been designed for calm and introspective character, while others, for lively and invigorating.

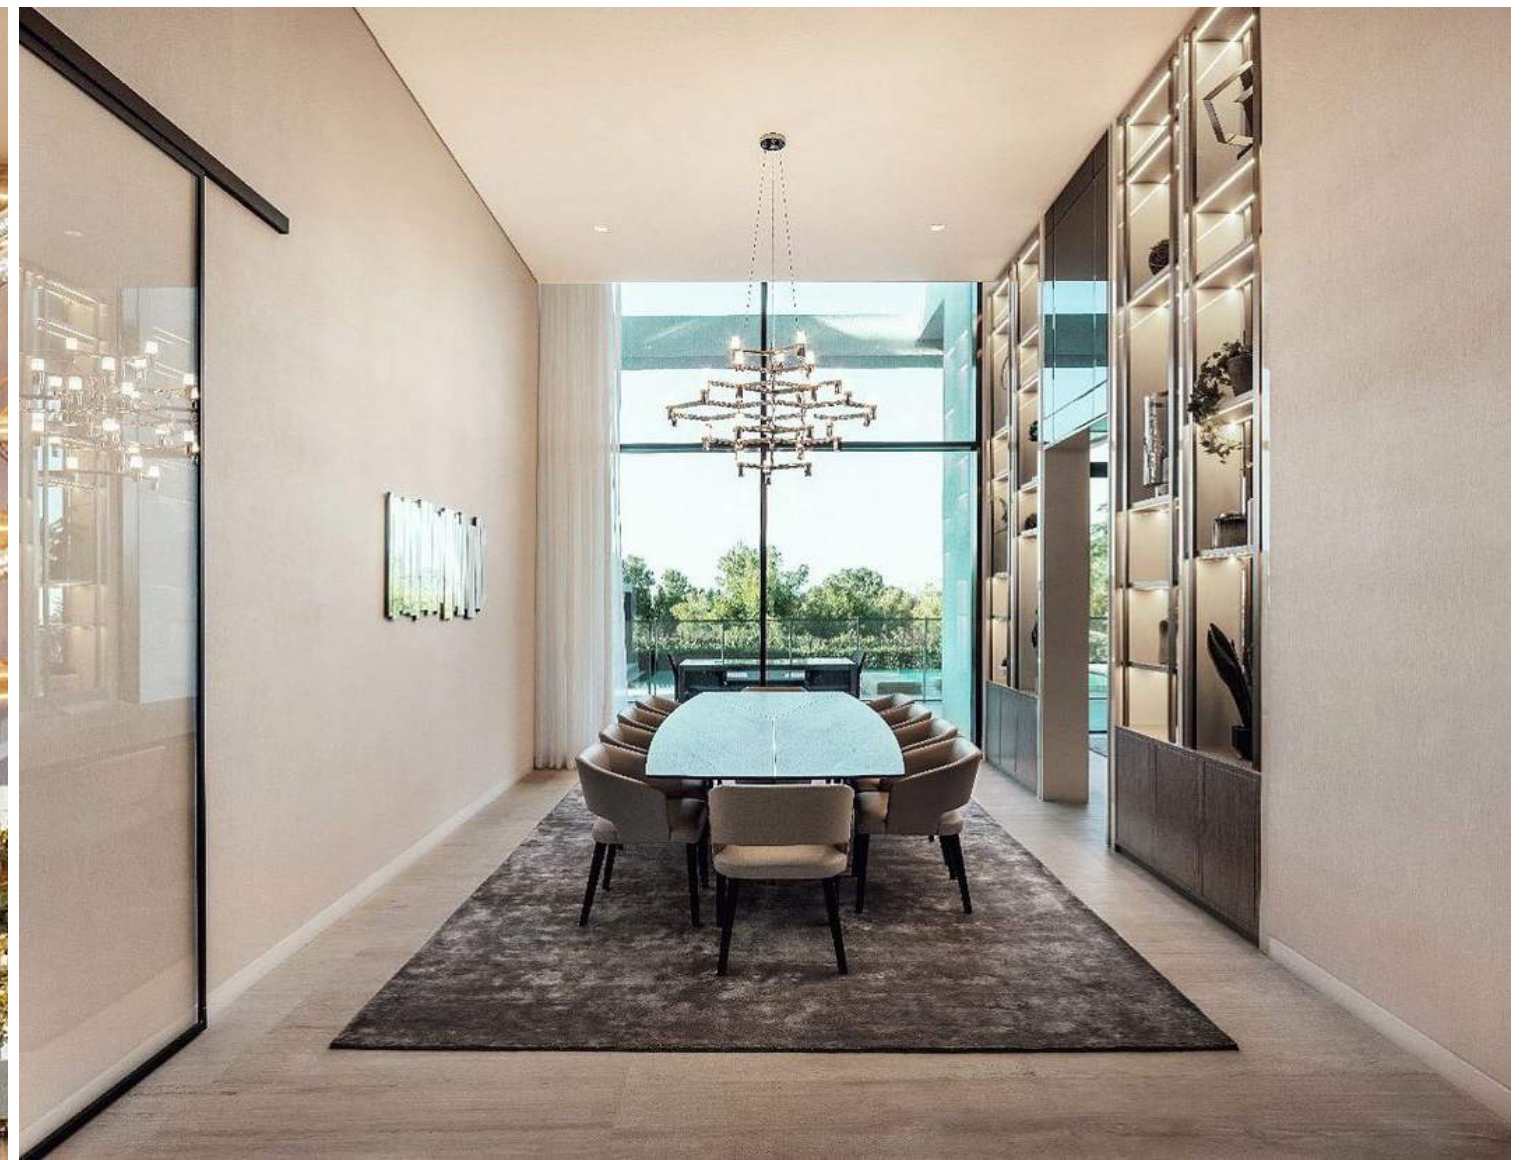

TRANSMED DUBAI HILLS

Transmed is a full service distributor, managing and controlling the entire distribution value chain. Transmed focused on the distribution of a very extensive range of Household and Personal Care Products from Procter & Gamble and Clorox, and in parallel developed the distribution of Food products. Every aspect related to the project is designed with utmost precision. Our concept was driven by the idea of creating an environment that would nurture and support the varied products and brands that exists within this office, allowing the fusion of diverse activities.

RESIDENTIAL **PROJECTS**

GOLF ESTATE VILLA

Decorating with metallic tones has never been so much fun but with modern glam décor. A stunning marble bar counter top injects a monolithic moment of glamour into the heart of the lounge, with sweeping swathes of golden veins in the back of the bar unit. A marble backsplash gracefully links the wall with the other deluxe black and white stone accents in the space. The marble console is paired with a designer lounge sofa, making it a stylish reading area next to another custom-made full height shelving unit design. Recessed lighting softly highlights the narrow tower. The open layout places the dining area within a metre of the lounge, but the delicately light and airy decor scheme maintains a spacious and uncluttered feel.

THE INTERNATIONAL
DESIGN &
ARCHITECTURE
AWARDS
2021
SHORTLISTED

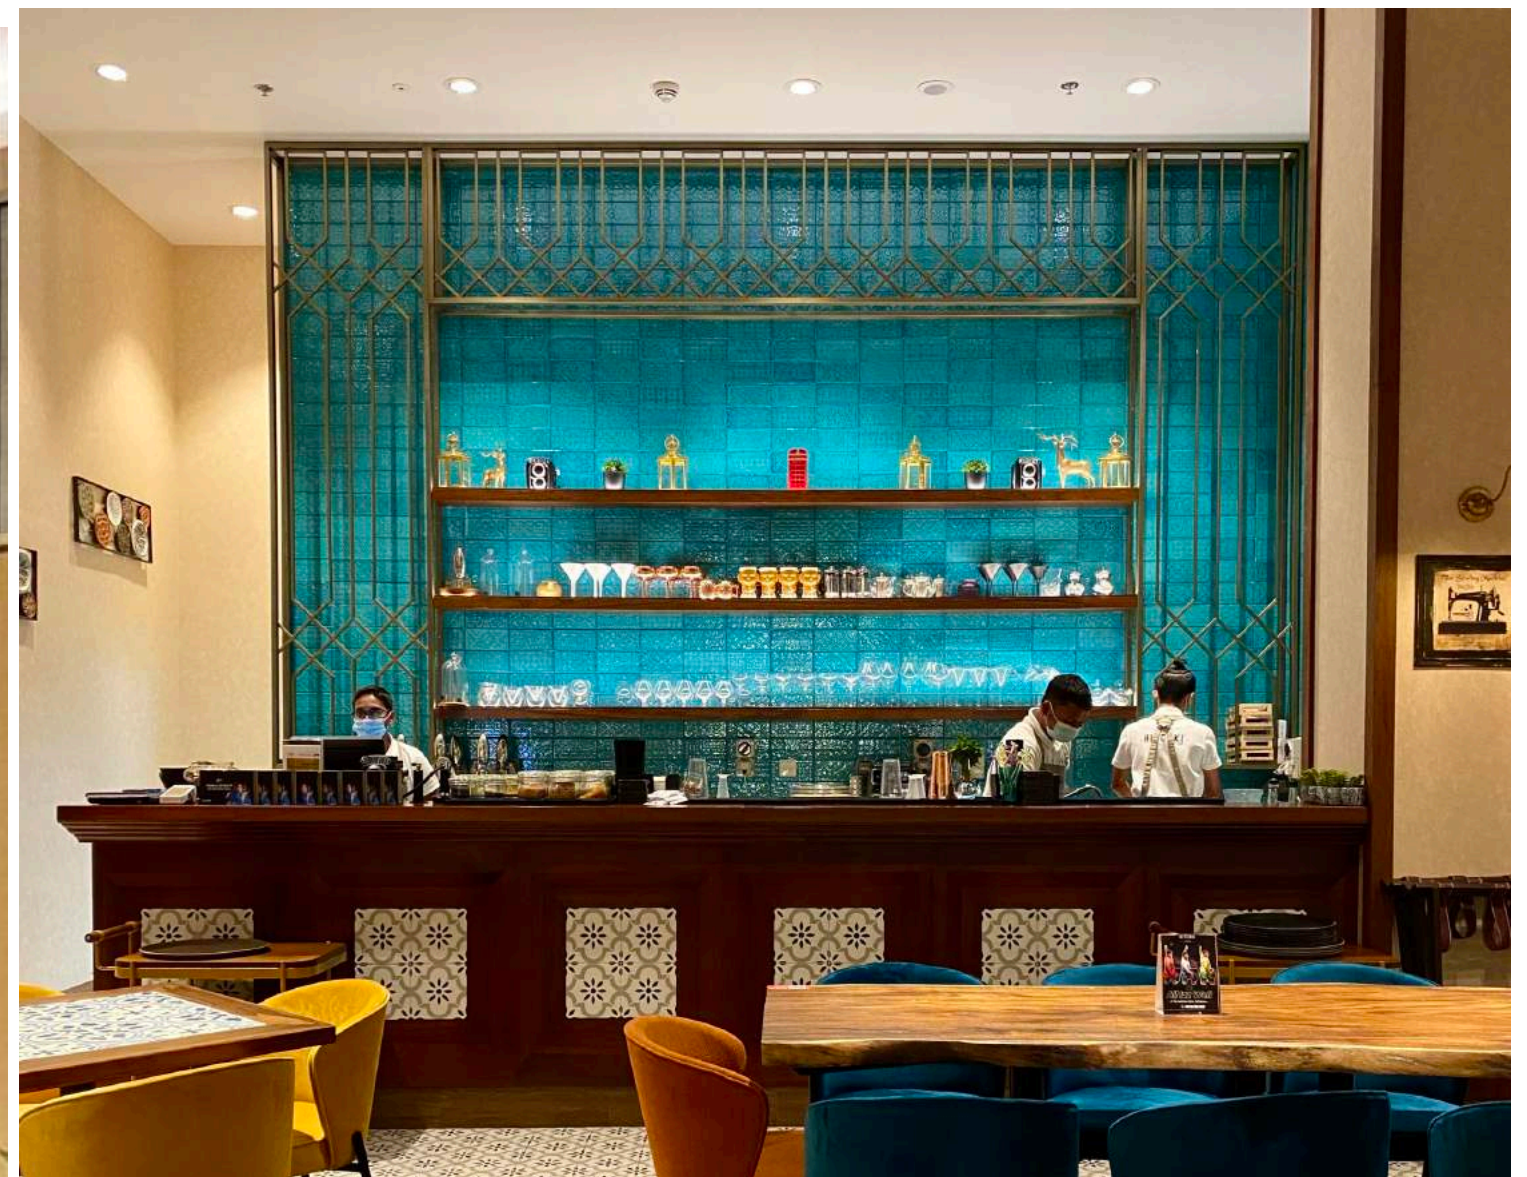

DT1 DUBAI DOWNTOWN

The project had recently received the award for Best Luxury Project by Arabian Business as well as winning the Best Residential High-Rise Architecture and Highly Commended Architecture for Multiple Residences. The interiors of the project feature different elements with a mix of concrete, corten steel and wood. The colour palette is very neutral and raw, evoking a sense of modern sophistication that is on a more human scale. Driven by today's modern living style, each residence is designed with plenty of storage spaces for efficiency and convenience. The open plan kitchens feature integrated high-end appliances, hanging rails, durable and scratch-free countertops and touch technology mixers.

F&B
PROJECTS

HITCHKI MIRDIF CITY CENTER DUBAI

Hitchki: A nostalgic sense of home abounds in this Indian fusion restaurant. Designed to provoke a sense of nostalgia within the cosy comforts of “home”, this Indian fusion restaurant mixes old-world charm with modern flair in Dubai. Beyond the warm glow of the bar, the restaurant draws you into the comfy, eclectic “home” of a well-travelled Indian, a purveyor of vintage finds collected from all over the world, artfully displayed on old-fashioned “drawing room” shelves and modern marble and brass side tables. Mixed with vintage pieces like gramophones and old telephones, perhaps handed down from older generations, there is a sense of nostalgia and a yearning for the simpler, bygone days of communication and entertainment before the digital boom.

DOWNTOWN **DESIGN 2019** ENTRANCE WAY & FAIR CAFE

The heart of the café is a tiered high bench layered with landscaping. The sculptural focal point was also a place for guests and exhibitors to catch up on work or grab a quick bite. Outside, the terrace area featured an open fire, lush greens and raking sand. the fair's section for limited-edition and bespoke design marked by a screen of bamboo trees, that whilst doubling as a soft divide from the bustling exhibition space brings nature into the fair's built environment.
