Air Conditioning

In a country where AC runs throughout the year, general maintenance & regular servicing is a constant requirement, and we at KRESTON realize the need for a regular servicing program thereby ensuring that your air conditioners run efficiently, thus saving electricity and possibly expensive repairs.

Electrical

Be it a switchboard repair, a wiring problem, light fittings, installation of electrical devices to electrical emergencies, affecting circuit and distribution boards, Kreston's technicians are fully equipped to deal with it.

Plumbing

From plumbing, work that includes replacement of domestic pumps, internal and external pipe repairs, water leakages, Faulty drainage line problem or a dripping faucet, our experienced team of skilled plumbers will give you complete peace of mind by providing you with the right solutions.

Carpentry

Get the best on-demand carpenters for creation or repair of any woodwork. From door installation, window fittings, reshaping and moulding of cabinets to construction of external and interior furniture or replacing a damaged door lock, our professional carpenters will do it all.

Painting

Be it a small repair, or a touch up job, or if you're moving in to a new house, or just want to make your current home look beautiful, we have the right seasoned painters to carry out the job for you.

Masonry

We at Kreston have skilled masons who can install new tiles, repair laminate flooring, and restore your beautiful hardwood floors. You can count on us to deliver the exceptional results you are looking for be it replacement, repairs or renovation.

Handyman

Every property at one point in time requires experienced and reliable handyman services to help with chandelier and light fittings, curtain hanging, pictures and TV mounting etc. We at KRESTON, have a team of particularly well-trained technicians who are also available on an hourly basis.

Tank Cleaning

Dirty muddy water & neglected water tanks are breeding grounds for harmful germs & bacteria. Since tank water is directly being used for brushing, bathing, washing dishes, fruits & vegetables we at KRESTON offer specialized tank cleaning services through mechanized dewatering, vacuum cleaning and disinfecting processes.
