

KEA DESIGN
WELCOMES YOU

KEA DESIGN

About Us

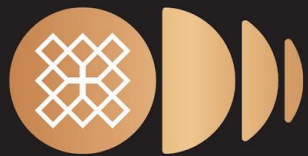

Founded in 2012, KEA Design is Dubai's most creative architectural and interior decoration company. They can deliver the most efficient and effective services in interior architecture (also called by various labels such as interior architecture design, interior design architecture, or interior architecture design -3D modelling and visualization, 3D rendering, and fit-outs.

There are no limits to the vast projects and designs we take on. KEA Design works across different sectors - from residential to commercial projects - and with a range of styles - from contemporary to traditional.

Though based in Dubai, KEA Design envisions itself as a global company, therefore considering a multitude of styles from all around the world when coming up with an architectural design concept while still making sure the style would fit with the broad patterns of interior decoration in Dubai. We ensured our team consists of international designers with Lebanese and European backgrounds, providing that our global outlook distinguishes us from other interior decoration companies in Dubai.

We develop innovative solutions developed through our cutting-edge technologies to create our products. These technologies aim to use renewable supplies; thus, we develop products and materials with less damaging social and environmental impacts. Our sense of social responsibility has led us to become a truly global company. Our principles have directed us to complete projects in different countries such as the UAE, Nigeria, Lebanon, Norway, and more.

Our Services

01. Architectural Design & Drawings

We provide efficient and effective drawings for various architectural structures such as apartments, villas, and commercial spaces. We add our creative flair to breathe life into a two-dimensional work of art.

02. Interior Space Planning

We ensure that functional areas are not over-decorated and are designed efficiently through proper space planning—this is what makes us a top-notch interior architecture & design firm.

03. Decoration & Materials

We find suitable color schemes, flooring materials, furniture, artwork, and accessories to fit homes or commercial spaces. We transform your area into something aesthetically pleasing according to whatever budget you have in mind.

04. Complete Fit-outs

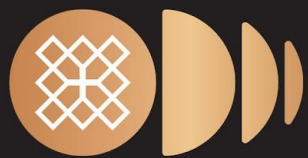

This includes installing ceilings, floors, furnishings, and partitions and installing all required building services, including wiring, cabling, and communication and internet connectivity arrangements.

05. Furniture & Product Design

We customize pieces that artisans build according to the customer's specifications and aim to create products that solve users' problems and address specific needs in any given market.

06. 3D Visualization

We are proud to have a proven track record of bringing ideas to reality. We render photorealistic 3D images and animations of your proposed design, projects, building, or development plans.
