GONDOLA UNITS:

Merchandising spaces have multiple opportunities to improve their space with gondola. ENRICH helps you with the design and manufacture of your custom made GONDOLA. Gondola helps to increase the number of products visible to customers or viewers. It helps to specialise each product section. (Materials used are wood, metal, glass etc.)

WALL UNITS:

ENRICH provides you specialised wall units to make your space innovative. Wall units can be placed on empty walls in your space. These wall units allows you to visually break up the space while keeping products visible to clients. and WALL END DISPLAY UNITS can be used to expand the existing wall units. (Materials used wood, metal, etc).

LIGHTBOXES:

Light boxes are widely used by retail stores and as company signs. These signs are easy to see and read in the dark and relay information from sales event promotions to brand reinforcement and information regarding store operation.

Every individual's vision is attracted towards bright light. Light box Signs of ENRICH creations are an excellent way to grab attention to your business 24x7. It can be with single or double sided graphics, LED/Fluoro lights and commonly with aluminium or acrylic.

They can be reused to promote different events such as seasonal sales or seasonal products.
